AWARDS OF DISTINCTION AND ACHIEVEMENT AND GRANTS OF THE PROGRAM, “BEST PRACTICES” ADOPTED.....	126

NARRATIVE PROFILE ON EXTENSION

Project Background and Rationale

The extension program integrates activities such as Basic Navigation and Seamanship Course and Modified Basic Safety Training, both essential components mandated by MARINA for issuing seafarers identification book to fisherfolks operating below 35 GT boats.

Bloodletting contributes to community health by facilitating blood donations that can be life-saving in emergencies and medical procedures. This activity ensures a sufficient blood supply for hospitals and healthcare facilities, supporting critical healthcare needs.

Coastal cleanup initiatives play a crucial role in environmental conservation by removing debris, trash, and pollutants from coastal areas. By safeguarding marine life, ecosystems, and maintaining clean beaches, coastal cleanup promotes community involvement in preserving coastal areas and raises awareness about the importance of protecting our oceans for future generations.

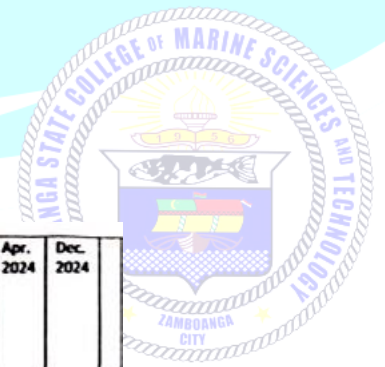

These activities promote social responsibility, community well-being, and environmental conservation, aligning with the overarching goals of the extension program to enhance skills and knowledge in maritime operations among fisherfolks and out-of-school youth.

THREE YEARS EXTENSION PLAN
2023 - 2026

CME EXTENSION PROGRAMS/PROJECTS	S.Y. 2023-2024
<p>The Extension Program of the College of Maritime Education (CME) to its adopted barangay. The College thru its different programs is mandated to conduct extension services to its various clientele to help in the government’s thrust for poverty alleviation in the countryside. Among the main program of the extension department is the Adapt-A-Barangay where a community is selected and adapted to become the center of its extension and livelihood training activities. Other extension programs were based on requests such as consultancy, outreach, or technology dissemination.</p> <p>The College of Maritime Education conducted various trainings in barangay <i>Mampang</i> since the time it became the College adopted barangay. After the termination of the first agreement with the barangay, a new Memorandum of Agreement (MOA) was signed last 2022 making <i>Mampang</i> the Institutional Adopted Barangay of Zamboanga State College of Marine Sciences and Technology (ZSCMST). For this reason, other colleges and programs of ZSCMST may also render their extension services with the barangay while CME will continue its commitment to the barangay in extending developed technologies for livelihood training and other technical assistance requested.</p> <p>Along this line, the College of Maritime Education through its different programs will prepare a three-year plan for the College Extension. The College programs will draw plans and projects within their line of expertise and implement them within the target implementation period. Projects previously conducted shall still continue to form part of the extension program for monitoring and evaluation to determine its impact on the community.</p>	

Programs/Thrusts	Activities/Action	Objectives	Persons/Units Responsible	Resources			Time Frame	
				Physical	Financial	Human	Start	End
1. Mass Blood Donation	Conduct Blood donation at ZSCMST Octagon Hall	<ul style="list-style-type: none"> To participate with Red Cross Zamboanga and La Caridad Eagles Club in city wide Bloodletting program 	<ul style="list-style-type: none"> ZSCMST- CME Personnel CME students Red Cross Staff La Caridad Eagles Club Members 			<ul style="list-style-type: none"> Extension Coordinator Dean TEO Director BSMT/BSME Program Adviser CME faculty CME students 	Jan. 2023	Jan. 2023
2. Coastal Clean-Up and Pollution Awareness	Conduct Coastal Clean-up on an adapted Barangay and lecture on Pollution Control Awareness in Participation of MARITIME WEEK 2023	<ul style="list-style-type: none"> Raise awareness about the damage being done to our environment by plastic pollution Help people take responsibility Reduce the amount of plastic pollution that reaches the ocean or harms wildlife Bring the problem of plastic pollution to the forefront of people's minds 	<ul style="list-style-type: none"> Extension Coordinator Dean TEO Director BSMT/BSMar.E Program Adviser CME faculty 	Supplies and materials needed for the activities	P10,000.00	<ul style="list-style-type: none"> Extension Coordinator Dean TEO Director BSMT/BSMar.E Program Adviser CME faculty CME students 	Aug. 2023	Dec. 2023

WELL-DEFINED OBJECTIVES

OBJECTIVES

The Extension and Community Outreach Service endeavors to:

1. Develop and transfer appropriate technologies to target beneficiaries to help them become globally competitive;
2. Encourage the faculty and students to participate in social action and in the community extension services of their respective colleges.
3. Contribute to an improved quality of human life in the depressed communities / barangays within the primary service area.
4. Conducts needs assessment to communities identified as depressed communities / Barangays within the primary service area.
5. Identify programs to meet community development needs to enable the community improve their quality of life.
6. Initiate systematic management of community resources through the provision of a research-based programs and projects.
7. Extend responsive planning, coordinating and implementing priority plans and programs to strengthen people social, economic and environmental well-being.
8. Formulate strategies to upgrade the quality of service rendered by coordinators, educators, trainers, entrepreneurs, and students on the different areas of interest, which promotes the components of Extension and Training as an organization.
9. Deliberate and finalize program and project proposals for inclusion and implementation in the strategic action plan.
10. Ensure that programs / projects are well documented, evaluated and monitored for accreditation.
11. Make sure that all activities and / or training programs in the communities / barangays must not be less than eight (8) hours in duration to be credited as extension program.

Encompassed within the overarching framework of the ZSCMST Mission and Vision:

ZSCMST Vision: A world-class institution for higher learning, research, development, and innovation in fisheries, marine sciences, maritime education, and technology by 2024.

ZSCMST Mission: Provide quality education and relevant research and extension to produce globally competitive human capital for fisheries and other marine-based industries.

The College of Maritime Education proudly aligns itself with the following mission and vision statements:

CME Vision: The Zonal Maritime Resource Nucleus for the Global Community.

CME Mission: The College of Maritime Education conceptualizes its primary role as the producer of competently trained and highly professionalized maritime manpower. We are imbued with the responsibility of upholding utmost basic training (BT), sufficient to comply with the requirements of STCW as amended, and such other international laws and conventions. Our mission is to prepare individuals to pursue a professional career or advanced studies in any maritime field of specialization.

Core Values:

Discipline
Honor
Integrity

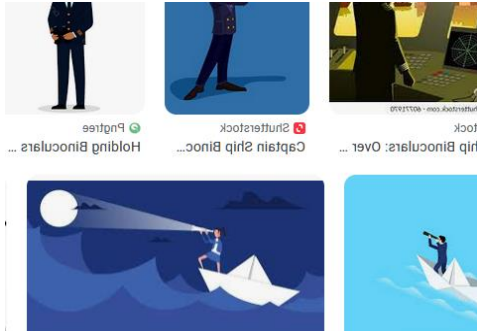

ZSCMST has strategically outlined the following goals for the period 2020-2024:

STRATEGIC GOALS 2020-2024

1. Produce professional human capital for gainful employment.
2. Provide quality research in line with national thrusts and global trends.
3. **Make extension services accessible to all.**
4. To become a more financially self-sufficient ZSCMST.
5. Streamline Processes to Improve Effectiveness
6. Develop an efficient, proactive, transparent, and accountable college management system and governance.

7. Intensive network/system and digital-based physical plant, facilities, and equipment in support of instruction, research, extension & production 4.0.

In tandem with the aspirations of the ZSCMST strategic goals for the period 2020-2024, the College of Maritime Education synergized its efforts with the following strategic goals for the same period:

CME Strategic Goals 2020-2024

1. Elevate maritime cadet competence for a world-class Filipino maritime workforce.
2. Foster maritime research and innovation
3. **Expand outreach and extension services to disseminate maritime knowledge to communities and industries influenced by maritime activities.**
4. Optimize financial sustainability for Maritime Education
5. Enhance operational efficiency and educational processes to ensure effective delivery of maritime education aligned with IMO and STCW requirements.
6. Implement governance structures that facilitate communication and decision-making in adherence to IMO and STCW standards.
7. Modernize maritime infrastructure for Education 4.0

CME STRATEGIC GOAL #3 Expand outreach and extension services to disseminate maritime knowledge to communities and industries influenced by maritime activities.

Objective 03: Strengthen Outreach and Extension Services

Key Performance Indicators

- Number of communities reached through outreach programs.

- Increased industry collaborations for knowledge dissemination.

Strategic Initiatives

- Develop community-specific maritime education programs.
- Establish partnerships with local industries for mutual knowledge exchange.

ADEQUATE AND RELEVANT PROJECTS/ACTIVITIES TO ACHIEVE OBJECTIVES

Rationale:

The Zamboanga State College of Marine Sciences and Technology-College of Maritime Education extension specifically on Bachelor of Science in Marine Transportation focuses on skills training and enhancement program on Basic Navigation and Seamanship as well as the Modified Basic Safety Training among the fisher folks of Barangay Mampang. This extension program was relevant to their needs with regards to the nature of their livelihood activities on the sea on how to properly navigate their fishing boat and how to respond to emergency situations in case untoward incidents happen in the middle of the sea.

Navigation is the art and science of safely and efficiently directing the movements of a vessel from one point to another. Piloting uses water depth and visible references, while dead reckoning uses courses and distances from the last known position. Seamanship is the art of operating a vessel. Specifically, it is a compilation of the skills and knowledge entailed in navigation, boat handling, maintenance, and the law of the sea. It involves working as part of a crew and when the occasion arises, leading a crew in the role of a skipper.

The Modified Basic Safety Training Course (MBSTC) refers to a customized version with typhoon training course developed by the MARINA of the IMO basic safety training course for seafarers, other vessel personnel complement onboard vessels below 35 GT.

By providing fisher folks with basic navigation, seamanship, and safety training tailored to their needs, we can empower them to navigate safely, protect their livelihoods, and contribute to sustainable fishing practices.

This extension program would provide a comprehensive education in navigation, seamanship, and safety, preparing participants for roles in the maritime industry that require advanced skills and knowledge.

The following are the relevant extension activities conducted by the BS Marine Transportation program of the Zamboanga State College of Marine Sciences and Technology from the year 2022 to present.

Two Day Extension Program in Basic Navigation and Seamanship Course with Modified Basic Training, February 24-25, 2024

From February 24th - 25th, 2024, the College of Maritime Education, in partnership with MARINA Region 9, organized a comprehensive two-day extension program focused on Basic Navigation and Seamanship with Modified Basic Training. Held in Barangay Mampang, Zamboanga City, this initiative aimed to equip participants, including fisherfolks and maritime students, with essential skills and knowledge for safe and efficient maritime operations. By bringing together fisherfolks and maritime students as participants and facilitators, the program fostered knowledge exchange and community engagement, empowering participants with essential skills and expertise.

Dr. Farida Cunanan, Honorable Leonard Aliangan, and Capt. Marnette Apit and 2/M Risil Ybera releasing the Certificates on the Two Day Basic Navigation and Seamanship Course with Modified Basic Safety Training

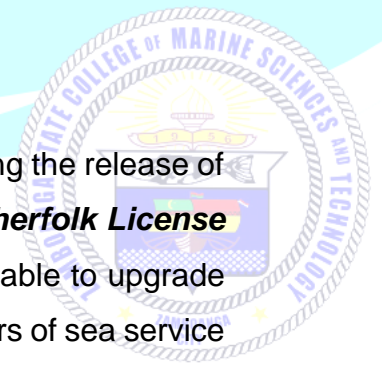

Releasing of Seafarers Identification Book November 15, 2024

On November 15, 2024 at Barangay Mampang, Zamboanga City, ten fisherfolks received their Seafarers Identification Books (SIB) after completing the Basic Navigation and Seamanship Course with Modified Basic Training. This achievement was made possible through the sponsorship of the Maritime Education Parents Program Foundation, Inc., which covered the cost of the SIBs. This milestone is a significant step for the fisherfolks, providing them with important credentials to advance their maritime careers.

CME teachers together with the fisherfolks with their SIBs

Looking ahead, the college has exciting plans in store. Following the release of the Seafarer's Identification Book, the next step will be securing **Fisherfolk License IDs** for eligible individuals. After two to three years, fisherfolk will be able to upgrade their SIB certification to become **boat captains**. This requires two years of sea service on any ship, regardless of its size.

Annex 1

Qualification and Documentary Requirements of Examinees

Qualification Requirement	Major Patron (MAP)	Minor Patron (MIP)	Boat Captain 3 (BC 3)	Boat Captain 2 (BC 2)	Boat Captain 1 (BC 1)	Marine Diesel Mechanic 2 (MDM 2)	Marine Diesel Mechanic 1 (MDM 1)	Motorman (MTRMN)	Documentary Requirement
1. Citizenship	Must be a Filipino Citizen								SIRB or SIB
2. Age	At least 18 years of age								
3. Character	Of good moral character								
4. Medical Fitness	Certified physically and mentally fit particularly regarding eyesight by DOH accredited medical clinic/hospital								Annual medical certificate issued by a DOH-accredited clinic/hospital
5. Sea Service	1 year sea service as MIP onboard ship of below 250 GT	1 year sea service as BC 3 onboard ship of below 100 GT	1 year sea service as BC 2 onboard ship of below 35 GT	1 year sea service as BC 1 onboard ship of below 15 GT	2 years sea service onboard ship of any capacity	1 year sea service as MDM 1 onboard ship with engine propulsion power of below 500 kW	1 year sea service as MTRMN onboard ship with engine propulsion power of below 250 kW	2 years sea service in whatever capacity in the engine room/ department or 1 year sea service onboard ship with engine propulsion power of below 100 kW.	<ul style="list-style-type: none"> Valid SIRB for MAP, MIP, BC 3, MDM 2, MDM 1 Valid SIB or Notarized sea service and Affidavit of Experience for BC 2, BC 1 & MTRMN
6. Education	Bachelor of Science in Marine Transportation (BSMT) graduate	Completed the academic requirements of BSMT	Completed the academic requirements of BSMT or Seafaring Rating Course (SRC Deck) graduate	At least High School Graduate or Seafaring Rating Course (SRC Deck) graduate	Must be able to read and write	Bachelor of Science in Marine Engineering graduate	Completed the academic requirements of BSMarE	At least high school graduate Seafaring Rating Course (SRC Deck) graduate	<ul style="list-style-type: none"> College Diploma, Transcript of Records Copy of High School Diploma
7. Training	BST ¹		MBST ²		BST ¹		MBST ²		<ul style="list-style-type: none"> Valid SIRB for MAP, MIP, BC 3, MDM 2, MDM 1 Valid SIB for BC 2, BC 1 & MTRMN

¹ Conducted by training centers accredited by the Maritime Training Council (MTC).

² Conducted by MTC-accredited training centers with valid accreditation to offer BST and are members of the PAMTCI.

Additionally, the college plans to enter into a **Memorandum of Agreement (MOA) with MARINA** to conduct the Basic Navigation and Seamanship Course with Modified Basic Training. The implementation of the **Sibuco Program** in Basic Navigation and Seamanship with Modified Basic Training, conducted by the College of Maritime Education in collaboration with MARINA at Zamboanga del Norte, holds immense value not only for Zamboanga City but also for the broader regional area. This initiative aims to empower fisherfolk and enhance their skills, equipping them with essential knowledge in navigation, seamanship, and safety protocols, thereby fostering safer and more efficient maritime activities. By extending the program's reach to neighboring regions, it addresses the wider need for sustainable practices and safety awareness among coastal communities, where fishing and small-scale maritime operations are vital economic activities. Moreover, the program also benefits the vessels themselves, as the adoption of proper navigation techniques and safety measures reduces risks of accidents, damage, and loss. Through this regional approach, the program not only uplifts individual livelihoods but also strengthens maritime industry standards, contributing to economic resilience and sustainability in the region.

MARINO Techs (Mariners Advancing Regional Industries through Novel Technologies) Extension program Welding and Wiring Training, December 15-17, 2023

The College of Maritime Education completed its first project as part of the MARINO Techs (Mariners Advancing Regional Industries through Novel Technologies) Extension program, Welding and Wiring Training conducted at Barangay Mampang. With this course, participants will obtain a better grasp of the right manner to conduct welding and wiring operations, which they can utilize to earn a living.

MARINO TECHS' WELDING AND WIRING program

From **December 15 to 17, 2023**, CME Extension Program conducted a **Welding and Wiring Training** at Barangay Mampang, aimed at enhancing the technical skills of participants through hands-on learning and practical application. This training focused on developing essential competencies required in both industries, ensuring that participants are equipped to meet professional standards and workplace demands.

Welding Training

Participants were trained in the following key areas:

- Applying safety practices and ensuring workplace safety.
- Interpreting technical drawings and performing industry calculations.
- Preparing weld materials, setting up equipment, and fitting materials.
- Using hand tools effectively and contributing to quality systems.
- Learning proper techniques for welding and repairing welds.

Wiring Training

The wiring module provided participants with competencies in:

- Operating hand tools and performing accurate mensuration and calculations.
- Preparing and interpreting electrical drawings and applying quality standards.
- Terminating and connecting electrical wiring and electronic circuits safely and efficiently.

This training aimed to empower participants with the knowledge and skills to take on real-world tasks confidently. Through expert instruction and practical exercises, the program emphasized safety, precision, and quality, contributing to the professional growth of every trainee.

Captain Marnette M. Apit together with 2/M Risil Ybera facilitates and teaches the Basic First Aid to the participants.

Capt. Marnette Apit teach Basic First Aid

Day 1: The training kicked off with an interactive learning session led by Engr. Ronilo Jayson (Welding), R/O Jesus Espina (Wiring), and Capt. Marnette Apit (Basic First Aid). The event also featured welcome remarks from Kagawad Glenn Dagalea, the Barangay Official overseeing the activity, on behalf of the Barangay of Mampang.

Day 2. Workshop activity: Creating Actual Project for welding and wiring.

Welding Workshop by Engr. Jayson

After covering the theoretical aspects of welding on Day 1, Engr. Ronilo Jayson proceeded to demonstrate the practical application of welding techniques, emphasizing the importance of safety protocols—an area where many welders often lack knowledge.

Once the demonstration was completed, participants were provided with the necessary tools and materials and were tasked to apply what they had learned through individual practice. Each trainee was instructed to perform various welding strokes to refine their handling skills and improve their timing, ensuring they develop confidence and precision in their technique.

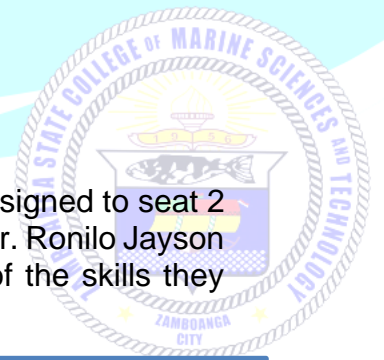

Day 2. Workshop activity: Creating Actual Project for welding and wiring

Wiring Workshop by R/O Espina

Following the theoretical input on Day 1, R/O Jesus Espina guided participants through the practical aspects of creating basic wiring connections. He demonstrated the correct methods for building parallel, series, and multiple connections while emphasizing the importance of safety practices to prevent electric shock—one of the most common injuries caused by a lack of awareness during wiring tasks.

After the demonstration, participants were assigned to apply their learning by creating wiring connections based on the instructions provided, reinforcing their understanding and hands-on skills.

Output Presentation (Welding)

The welding participants successfully crafted a metal-framed chair designed to seat 2 to 3 people. Throughout the process, they received guidance from Engr. Ronilo Jayson and passed his initial assessment, demonstrating their application of the skills they acquired during the workshop.

Output Presentation (Wiring)

Participants of the wiring training designed and assembled their own connection boards following the guidelines and instructions provided by R/O Jesus Espina. Each board featured various connections and diagrams, showcasing the participants' understanding and application of the concepts learned during the workshop.

Phase 3
Welding and Wiring Training
ZSCMST Campus
(June 15 and 22, September 21 and 28, October 5 and 19,
November 5, 2024)

The "MARINO Techs" Extension Program is an initiative of the College of Maritime Education (CME) aimed at equipping participants with essential technical skills in Welding and Electrical Installation and Maintenance. Aligned with the standards set by the Technical Education and Skills Development Authority (TESDA), this program is designed to prepare trainees for the National Certificate Level II (NC II) Assessment, enhancing their qualifications and employability in the maritime and industrial sectors.

The program commenced on June 15, 2024, and conclude on November 9, 2024, following several months of intensive hands-on training. It accommodates 10 trainees in Welding and 3 trainees in Wiring (Electrical Installation and Maintenance). Each participant undergoes structured modules focusing on practical techniques, industry best practices, and safety protocols, ensuring they meet the competencies required for TESDA accreditation.

Through the MARINO Techs Extension Program, the CME extends its commitment beyond the classroom, empowering individuals with specialized technical skills essential for personal and professional growth. This initiative also strengthens the college's mission to produce competent, globally competitive professionals ready to excel in their fields.

As part of our school's drive for continuous improvement and community engagement, this program exemplifies our dedication to training excellence. Its outcomes will contribute meaningfully to our accreditation process, showcasing the effectiveness of CME's initiatives in aligning education with industry standards.

Wiring (Electrical Installation and Maintenance)

During the MARINO Techs training, participants will engage in a series of hands-on activities aligned with the core competencies required by TESDA. Specifically, trainees in Electrical Installation and Maintenance will:

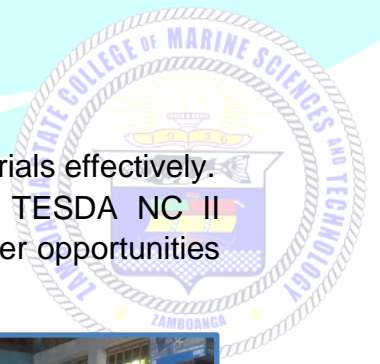

- Perform roughing-in activities, wiring, and cabling for single-phase distribution, power, lighting, and auxiliary systems.
- Install electrical protective devices for distribution systems, including lightning protection and grounding.
- Install wiring devices such as floor and wall-mounted outlets, lighting fixtures, switches, and auxiliary outlets.
- These tasks will provide participants with the practical skills necessary to meet industry standards and prepare them for the TESDA NC II Assessment, ensuring they gain both technical proficiency and safety awareness.

Welding

During the MARINO Techs training, participants in the Welding Program will focus on mastering core competencies required for TESDA NC II. Specifically, trainees will:

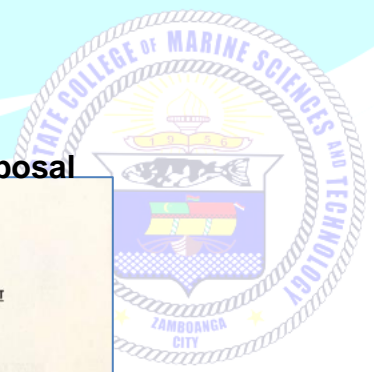

- Weld carbon steel plates and pipes using Shielded Metal Arc Welding (SMAW) techniques.
- Perform fillet and groove welds in various positions to meet industry standards.
- Apply proper welding procedures to ensure high-quality and structurally sound welds.

- Follow safety protocols to handle welding equipment and materials effectively.
- These practical exercises aim to prepare trainees for the TESDA NC II Assessment, equipping them with the necessary skills for career opportunities in the maritime, industrial, and construction sectors.

Mariners Advancing Regional Industries through Novel Technologies: **MARINO TECHS**
 "Enabling Marine and Maritime Communities through Livelihood and Technologies"

Title of Project : Phase 3: CME-Community Extension Projects and Basic Navigation and Seamanship Course (BaNaSCo) For AY: 2023-2024

Proponent : 3/E Ivan Jude P. Martinez
 C/E Christalyn D.R. Chiong
 Capt. Marnette Apit
 Marlon R. Omatang
 George S. Lauriaga Jr.

Location of Beneficiaries : Barangay Mampang, Zamboanga City

Date of implementation : February–December, 2024

Source of Funding : STF-Tuition and other fees

Project Cost : 100,000.00

Rationale:
 Community Extension Services is an essential function of higher education institutions that derives its plans and programs for the delivery of community services from instruction and research. Conducting community extension service is about relationships in building communities through teaching. The programs and activities are geared toward helping people by empowering themselves through sustainable programs and enabling the programs to reach and "Touch the lives" of communities and the environment through services that transfer knowledge and technologies to create an impact on holistic and sustainable development programs and people empowerment.

MARINO TECHS
 WELDING AND WIRING TRAINING

May 03, 2024

Dr. Jaime G. Jalon
 College President
 This College

Subject: Request Approval for weekly Welding and Wiring Training in Campus

Dear Dr. Jalon,

This has reference to the approved extension program of the college **MARINO Techs: Maritime Teachers Teach Technology**. The program aims to provide practical skills training to our participants in the field of welding and wiring to enhance their technical knowledge and improve their employability. As we are now on Phase 3 of the program implementation, I would like to request for the approval to conduct Welding and Wiring Training at school campus (CME Machine shop and CME Electro-Laboratory).

Specifically, the training sessions are scheduled every Saturday from May to July 2024. The participants will gain hands-on experience and industry-relevant skills that will benefit them in their future careers by conducting this training in campus. The training will be facilitated by qualified instructors from College of Maritime Education, ensuring high-quality education and professional guidance throughout the program. We believe that this program will not only enrich the learning experience of our participants but also contribute to the overall growth of our educational institution. A separate attachment referring to the program flow with the assigned faculty and their specific task will be provided.

In view hereof, I am requesting for the approved work schedule of faculty involved (See attached list) and the access of Mampang resident trainees (List of names attached) on the schedule training dates along with the approved use of the facilities and equipment.

Thank you very much for your continued support.

Respectfully yours,

**Construction of MARINO Techs Metal works and Repair shop
(Income generating project)
March- October 2024**

In March 2024, the construction of a small workshop began at the residence of Elisberto Arieta in Barangay Mampang. This shop was established as part of the income-generating initiative for the participants of the CME MARINO Techs Extension Program: Welding Training. The goal was to provide a sustainable livelihood for the beneficiaries through welding and metalworks services, empowering them to contribute to their community and improve their economic standing.

The shop, now fully operational as of October 2024, is managed by Elisberto Arieta along with his nephews Jayson and Jayvee Arieta, and supported by skilled workers Nick Santos and Hamillton Ballovar. Each member brings unique expertise in welding and fabrication, and together, they have quickly formed a dynamic team committed to delivering quality products and services.

The shop's first major job order was a custom-made cage for a fighting rooster, a popular item in the local community. Jayvee Arieta took charge of the project, ensuring that the cage was built to the specifications requested by the customer. The total cost for the cage was 3,500 pesos, with 2,000 pesos allocated for materials and 1,500 pesos for labor. This first order not only marked the successful launch of the shop's operations but also signaled the potential for future projects in the growing demand for custom metal works in Barangay Mampang.

As the shop continues to grow, Elisberto and his team aim to expand their client base, offering services such as custom metal gates, furniture, and other welded products. The project has proven to be a promising source of income, providing the beneficiaries with stable livelihoods and helping to foster a sense of self-reliance and community pride.

Through this small but thriving workshop, the Arieta family and their team have laid the foundation for a sustainable business that will continue to contribute to the economic development of Barangay Mampang for years to come.

March – May 2024 Shop status:

The **College of Maritime Education (CME)** exemplifies **stewardship** through its extension activities, fostering a deep sense of responsibility and care for the maritime industry and the environment. These initiatives include community outreach programs, such as coastal clean-ups and marine conservation projects, which emphasize the importance of preserving marine ecosystems. CME also promotes sustainability and ethical practices by organizing awareness campaigns, supporting research on eco-friendly maritime technologies, and encouraging student-led environmental initiatives. Through these efforts, the CME cultivates a culture of leadership and accountability, preparing future maritime professionals to act as responsible stewards of the seas.

24th National Maritime Week was conducted along with the Coastal Clean-up of our Campus on the 23rd of September, 2023

The 24th National Maritime Week Celebration held on September 23, 2023, marked a significant event for the College of Maritime Education as it coincided with a Coastal Clean-Up initiative. Faculty and students united in a shared commitment to maritime awareness and environmental stewardship, making it a memorable and impactful day.

Exemplified the synergy between maritime advocacy and environmental consciousness. Faculty and students stood as one, embodying a shared commitment to maritime excellence and environmental stewardship.

As participants departed with a renewed sense of purpose and pride, the event left a lasting impression, serving as a reminder of our collective responsibility to safeguard our oceans and promote sustainable maritime practices. The success of the day underscored the power of collaboration and community engagement in driving positive change for our maritime heritage and environment.

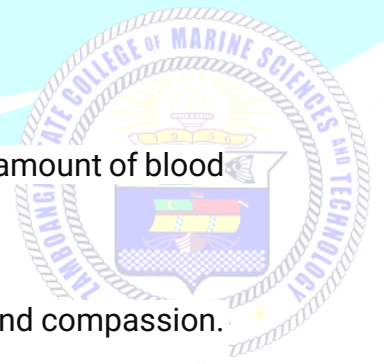

Capt. Alvin Selisana, Capt. Marnette Apit, 2/M Elcid Aranan, 2/M Edwin Narca together with the program adviser Capt. Edmondo Laurente is with us in keeping our coastal clean.

24th National Maritime Week, Maritime students get together to have the school's coastal area clean and away from marine pollution

Advocacy program on “*MASS BLOOD Donation*” spearheaded by the maritime education program held on the 21st of January, 2023

On January 21, 2023, the Maritime Education Program took a proactive step towards community service by spearheading a "MASS BLOOD Donation" advocacy program. Held in the Octagon Hall, this initiative aimed to contribute to the well-being

of individuals in need of blood transfusions by donating a significant amount of blood to the Red Cross Blood Bank.

Stands as a testament to the program's dedication to service and compassion. Through the generous contributions of faculty and students, lives were potentially saved, and hope was extended to those facing health challenges.

As participants departed with a sense of fulfillment and pride in their collective achievement, the program left a lasting impression on the importance of solidarity and empathy in addressing societal needs. The success of the event underscores the transform *Advocacy program on "bloodletting activity" spearheaded by the maritime education program* cation Program's role as a catalyst for positive change in the community.

2/M Ricardo Quiaoit assisted and participated on the bloodletting activity

Basic Life Support and Hygiene Program at Mampang, Zamboanga City on October 08, 2022

On October 08, 2022, the College of Maritime Education took the lead in organizing a Basic Life Support (BLS) Program in Mampang, Zamboanga City. Recognizing the importance of equipping individuals with life-saving skills, this initiative aimed to empower participants with the knowledge and confidence to respond effectively to medical emergencies.

The program encompassed a combination of lectures, demonstrations, and hands-on workshops to provide a well-rounded learning experience. Expert resource speakers shared invaluable insights into emergency response protocols, CPR techniques, and airway management.

23rd Maritime week celebration conducted Mangrove Planting at Talon-Talon Zamboanga City, on the 23rd of September 2022

In commemoration of the 23rd Maritime Week Celebration, a meaningful event took place on September 23, 2022, in Talon-Talon, Zamboanga City. As part of the celebration, a mangrove planting activity was organized to promote environmental awareness and sustainable coastal management. Maritime students played a pivotal role in actively participating and contributing to this eco-friendly initiative.

Served as a poignant reminder of the interconnectedness between maritime endeavors and environmental conservation. Through the active participation of maritime students and community members, the event fostered a sense of environmental responsibility and collective action in safeguarding our coastal ecosystems.

Students with the college dean 2/M Nonito Gonzales

23rd Maritime Week “New Technologies and Greener Shipping” Beach Clean-up on 24th day of September 2022

As part of the 23rd Maritime Week Celebration, an event themed "New Technologies and Greener Shipping" was organized to highlight advancements in the maritime industry and promote environmental consciousness. On September 24, 2022, a beach clean-up initiative was conducted at Boulevard, Zamboanga City, with active participation from maritime students and faculty members.

Maritime students, faculty members, and volunteers donned gloves and grabbed trash bags to commence the beach clean-up activity. Armed with a shared commitment to preserving coastal ecosystems, participants scoured the shoreline, collecting litter and debris that had accumulated along the beach.

Through meticulous teamwork and dedication, participants meticulously cleared the beach of plastic waste, discarded items, and other pollutants, ensuring the restoration of the pristine beauty of Boulevard. The clean-up effort served as a tangible demonstration of the maritime community's dedication to environmental stewardship and sustainability.

23rd Maritime Week, Maritime students together with the College Dean 2/M Nonito Gonzales conducted Beach Clean-up

23rd National Maritime Week 2022, 22nd of September

Bloodletting

In observance of the 23rd National Maritime Week 2022, a bloodletting event was organized on September 22nd. This initiative aimed to underscore the maritime community's commitment to service and solidarity while contributing to the welfare of society. Maritime students, along with the College Dean 2/M Nonito Gonzales and Harbour Master Captain Arthur Inogas, actively participated in this noble cause by donating blood.

Amidst an atmosphere of camaraderie and unity, donors selflessly gave a part of themselves to support individuals in need of life-saving blood transfusions. The act of blood donation exemplified the maritime community's ethos of compassion, generosity, and service to humanity.

23rd Maritime Week, Maritime students with the College Dean 2/M Nonito Gonzales and Harbour Master Captain Arthur Inogas participated in a blood donation

Coastal Clean-Up Along the College Shoreline on 25th day of June 2022

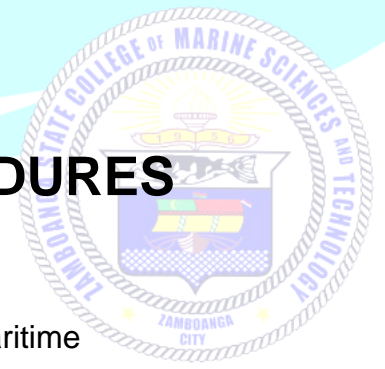

On June 25, 2022, in honor of the Day of the Seafarers, the College of Maritime organized a Coastal Clean-Up along the college shoreline. This event served as a tribute to seafarers worldwide, highlighting their invaluable contributions to global trade and maritime safety. Maritime students and faculty members joined forces to clean and preserve the college's shoreline, embodying the spirit of environmental stewardship and solidarity with seafaring communities.

CME faculty and students together with the dean 2/M Nonito Gonzales celebrated the day of Seafarers by cleaning the shoreline

SYSTEMATIC & EFFECTIVE PROCEDURES

Initial visit to the Barangay

Barangay Mampang recently sent a formal letter to the College of Maritime Education, requesting assistance in extending maritime knowledge and skills to their local fisherfolk. Recognizing the expertise of the college in navigation, seamanship, and maritime safety, the barangay sought support in providing training that would enhance the capabilities of their fishing community. The letter emphasized the importance of equipping their fisherfolk with practical knowledge to ensure safer and more efficient fishing operations, as well as compliance with maritime regulations. Barangay Mampang expressed their commitment to collaborating with the college to uplift their community through education and skill-building initiatives.

Republic of the Philippines
CITY OF ZAMBOANGA
OFFICE OF THE BARANGAY CHAIRMAN

November 13, 2023

JAIME G. JALON
President, ZSCMST

Greetings from Barangay Mampang!

In recognition of the critical role that maritime education plays in ensuring the safety and competence of our local fisherfolk, we, the officials of Barangay *Mampang*, respectfully request your esteemed institution to extend its expertise in maritime education for the fisherfolk in our community.

The majority of our residents rely on fishing as their primary source of livelihood. However, due to the increasing challenges posed by unpredictable weather patterns and the complex nature of maritime navigation, there is a growing need to equip our fisherfolk with fundamental knowledge in safe navigation and basic seamanship skills. These skills will not only enhance their safety while at sea but will also contribute to more efficient and sustainable fishing practices.

We believe that the College of Maritime Education at the Zamboanga State College of Marine Sciences and Technology is in a unique position to provide this much-needed training, given its reputation for excellence in maritime education. We are hopeful that through your expertise, we can empower our fisherfolk with the skills necessary for their safety and success.

*Barangay mampang
sent a formal letter to the
the CME*

We would be deeply grateful if you could consider this request and work with us to schedule and plan the training at a time convenient for your team. Thank you for your consideration of this request, and we look forward to your positive response.

Yours sincerely,

HON. LEONARD P. ALIANGAN
Chairman, Barangay Mampang

COLLEGE OF MARITIME EDUCATION

February 20, 2024

HON. LEONARD P. ALIANGAN
 Barangay Chairman
 Barangay Mampang, Zamboanga City

Dear Sir,

I hope this letter finds you in good health and high spirits. I am writing to request your support for the conduct of an extension program on basic navigation and seamanship for the fisherfolks of Barangay Mampang. This training program is designed to enhance the maritime skills and safety awareness of our local fisherfolks, ultimately contributing to the overall well-being and competence of our maritime community.

We are proposing to conduct the Basic Navigation and Seamanship Course on February 24-25, 2024, to provide comprehensive training to the fisherfolks in our barangay. The course will cover essential topics such as navigation techniques, safety at sea, maritime regulations, and emergency response protocols. By equipping our fisherfolks with these vital skills and knowledge, we aim to enhance their capabilities and ensure their safety while out at sea.

In this regard, we kindly request your assistance in providing a suitable venue to conduct the training program. A space that can accommodate approximately 35 participants comfortably and is conducive to interactive learning would be greatly appreciated. Additionally, access to necessary facilities such as audio-visual equipment, whiteboards, and restroom amenities would contribute to the success of the training.

We believe that by collaborating with the Barangay Mampang leadership, we can create a meaningful impact on the professional development and safety practices of our local fisherfolks. Your support in providing a venue for this training program will be instrumental in fostering a culture of safety, competence, and continuous learning within our maritime community.

Thank you for considering our request. We look forward to the opportunity to work together in empowering our fisherfolks with the necessary skills and knowledge for their maritime endeavors.

Warm regards

HONORABLE LEONARD ALIANGAN
 Barangay Chairman
 Mampang, Zamboanga City

Salutations!

Greetings of Peace and Goodwill,

Dear Sir,

The College of Maritime Education and Research and Extension Office of Zamboanga State College of Marine Sciences and Technology (ZSCMST), will be conducting a training workshop activity on Shielded Metal Arc Welding (SMAW) and Basic Life Support Training and Hygiene on your barangay. This activity will greatly benefit your constituents for the skills and knowledge that will be gained from the activity is a contributing factor in making your constituents a more productive individual.

The Activity will be conducted on a two consecutive Saturday, October 1 and October 8, 2022 from 8:00am to 3:00 pm. Hoping for a Favourable response. Thank you and God bless!

Very truly yours,

COLLEGE OF MARITIME EDUCATION

MARCH 04, 2024

HON. LEONARD P. ALIANGAN
 Barangay Chairman
 Barangay Mampang, Zamboanga City

Dear Hon. Aliangan,

Warm greetings! We are writing to request your kind approval to **conduct monitoring activities in Barangay Mampang as part of our CME "MARINO Tech" Extension Program: welding and wiring training**

The monitoring activity is planned for March 5, 2024 and will focus on evaluating the progress of the project, gathering feedback from beneficiaries, and identifying opportunities for improvement. These efforts are essential to ensure that the project remains aligned with its goals and continues to make a positive impact on the community.

We kindly request your approval to proceed with this activity. Should you need additional information or wish to discuss this further, please feel free to contact us at 09668897415.

Thank you for your support and partnership in this meaningful endeavor. We look forward to your positive response.

Sincerely,

3/E Ivan Jude P. Martinez

WELDING AND WIRING TRAINING

March 05, 2024

Dr. Jaime G. Jalon
 College President
 This College

Dear Dr. Jalon,

I am writing to formally request your approval to **conduct monitoring activities in Barangay Mampang as part of our ongoing CME "MARINO Tech" Extension Program: welding and wiring training** which aims to promote community development and provide livelihood training to the community of Barangay Mampang.

The monitoring activity is proposed to be conducted on March 5, 2024 and its purpose is to assess the progress of the initiatives implemented, gather feedback from the beneficiaries, and evaluate areas for improvement. This will ensure the continued effectiveness and relevance of the project to the needs of the community.

I respectfully seek your approval for this activity and would be glad to provide any additional information or documentation you may require. Thank you for your continued support in advancing the mission of our institution to contribute meaningfully to the community.

Looking forward to your favorable response.

Sincerely,

IVAN JUDE P. MARTINEZ

NEEDS ASSESSMENT SURVEY

Activity	Conduct of Needs Assessment Survey for the Barangay Mampang Extension program
Date	July 12-August 2021
Partner Organization	Mampang Mangrove Agosilvi Organization, Rural Improvement Club of Mampang & Mampang Barangay Council
Participants	24 Barangay NGO members and Mampang Barangay Council
Concerned Units/Personnel	ZSCMST Personnel/Faculty (Mr. E. Sales, Prof. M. Omatang, Prof. M. Tubat) Mampang Barangay council (Bray Adm/Chairman) NGO- MMA (Mr. Salvador Arieta, President) RIC (Ms. Luisa A. Barrera) and members.

INTRODUCTION/METHOD OF DATA COLLECTION

The need assessment survey is one of the tool employs in the development of the barangay extension programs. It is one way of knowing the needs and as well the desire of our barangay constituents on what possible intervention that the college can assist in trying to mitigate poverty in the countryside. Covid-19 was still active even at present time and in order to obtain the needed data; the College of Fisheries and Marine Sciences distribute needs assessment questionnaires to the barangay folk through the active NGO barangay organization from July 12- August 20, 2021. The extension coordinator incharge coordinated with the Organization's President through for the schedule retrieval of the forms that will later serve as basis for the final crafting of the extension projects for the year. The Barangay chairman was also provided with questionnaires about the barangay profile which will also supplement in the formulation of the extension project in the barangay.

NEED ASSESSMENT TOOLS USED

A. SURVEY RESULTS

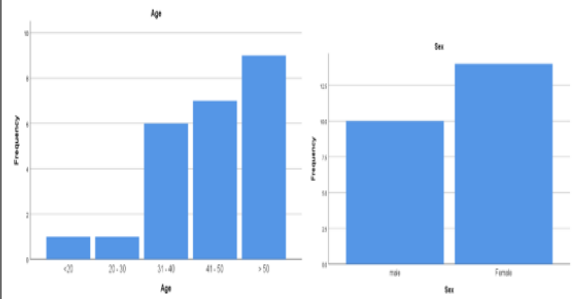

Figure 1. Age and Sex of respondents

on of respondents

Needs Assessment Survey

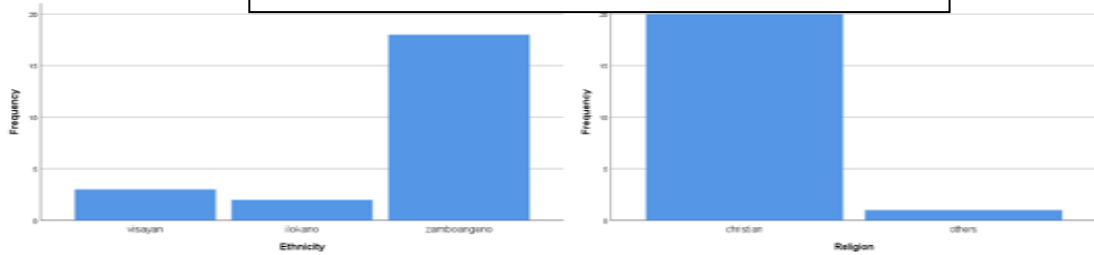

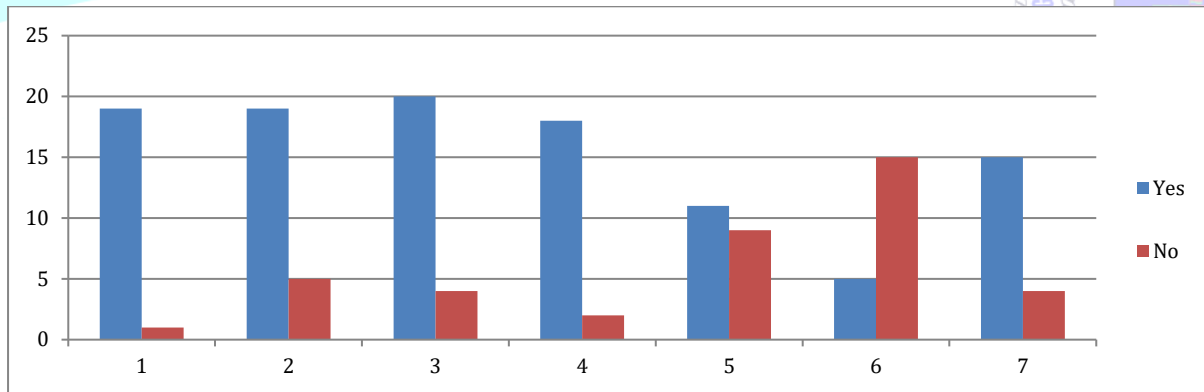

Figure 4 Ethnicity & Religion of respondents

Figure 5. Income of respondents

QUESTIONS	Answers	
	YES	NO
1. Is there a possibility of creating more jobs in your respective community?		
2. Is there a political scenario/s in your communities that do not change significantly?		
3. Is there a radical change in government policies with regard to livelihood entitlements?		
4. Are there other agency conducting extension programs and services in your respective community?		
5. Is the barangay council often and supportive to any organization that will conduct livelihood programs in your respective barangay?		
6. Is there allocated budget to support for any livelihood programs in your respective barangay?		
7. Is there any possible micro/macro finance enterprise in your barangay to be tapped for a livelihood purposes?		

Fig. 6. Responses on Risk Assessment Questions by respondents

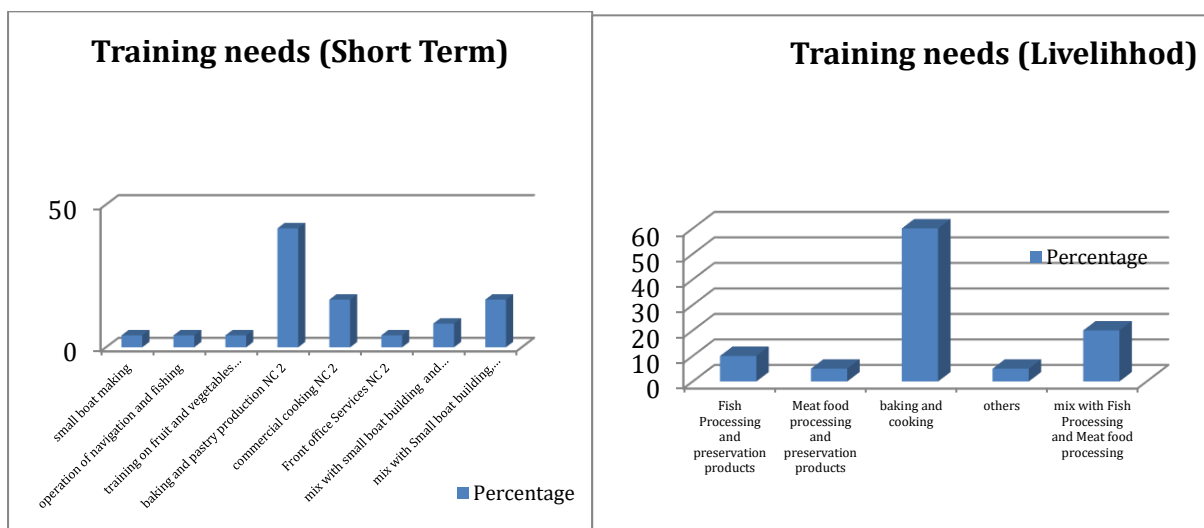

Fig. 7. Responses on Training needs (Short term & Livelihood)

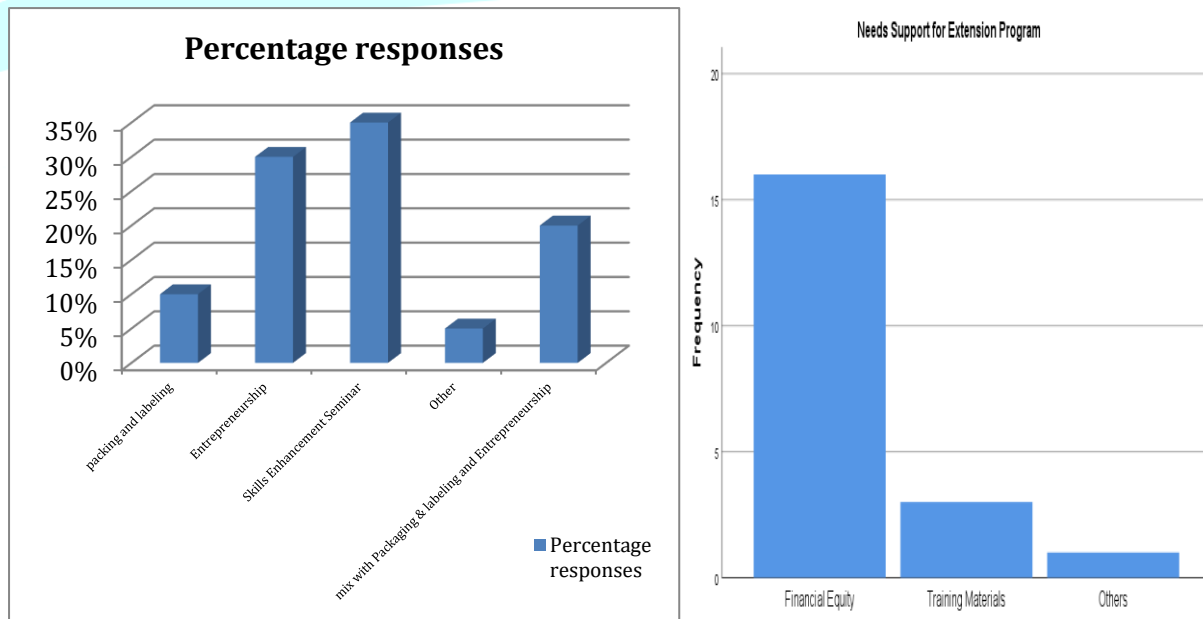

Fig. 8. Other training needs & support for Extension Program

A. DISCUSSION:

Needs assessment Results shows that 37.5% of the respondents belong to age bracket of 51-60 years old and 29.1% from age bracket of 41-50 and the least, 4.2% from ages 30 to 20 and below. The dominant respondents were female that comprises 58.3% while male 41.7% (**Fig 1**). Majority of the respondents are married (66.7%), Single comprises 20.80% and 4.2% widows. In terms of number of children, two (2) children per family is 23.8% followed by three (3) and four (4) by 19% and 14.4% respectively. All the rest by 9.5% The lowest was from six (6) children and above 4.2% (**Fig 2.**). In terms of education 20.8% of the respondents are either High School level or High School graduates. 16.7% are elementary level and those that had 1-2 years in college. Only 4.2% are trade technical graduate. By employment 39.20% are unemployed, 21.7% other forms of livelihood, 17.4% are seaweeds farmer and fisherman and only 4.3% were able land job on private companies. (**Fig. 3**)

Majority of the respondents are Zamboangeños (78.3%) followed by visayans (13%) and Ilokano 8.7%. Christianity hold vast majority followed by other faiths (**Fig. 4**). On income, 36.8% earn below three (3) thousand per month, 21.1% from four thousand one to five thousand, while about 15.8% (3,001-4,000) per month. The highest paid from the salary bracket of 6,001-7,000 per month is only 5.3% of the respondents (**Fig. 5**).

Among the responses on the risk assessment which involves political scenario, job opportunities and changes in the government policy on providing livelihood training, majority of the responded affirmatively except on questions on allocated budget and support for livelihood programs majority responses with negative and with low rating of affirmation on the barangay support on livelihood projects (**Fig. 6**).

On short term courses, (Baking and pastry production) top the list, followed by combination of (small boat building, Training on minced fish processing, and Commercial cooking. Next in line of the priority choices was Boat building, Baking and Pastry production. Others like were

equally important but on the last list of respondents priority (Training on fruit and vegetables preservation, Operation of navigation and fishing) On livelihood training, majority favours Baking and Cooking, followed by Fish processing and preservation products, Food processing and preservation products and the least is on others like electricity training for livelihood (**Fig. 7**).

Among other trainings, skills enhancement seminars top their choices followed by Entrepreneurship and combination of packaging and labelling and skills enhancement seminars. There are other choices made which are not within the mandate of the college thus there were listed only as others. Financial equity top on the choice of respondents (**Fig. 8**).

The Barangay council of Mampang also provided Barangay profile data and socio-economic characteristics of the community. Summary of the responses are presented below on **Table 1** & **Table 2** respectively.

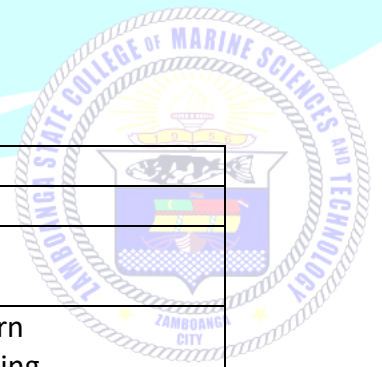

In the barangay profile it was indicated that the dominant family size is in the bracket of 4-7 family members in the household followed by 1-3 members and the least is 11 and up members in the family. As far as religion majority embraces Christianity and follows by Islam as the second. Minority are those that belong to other Christian related faith. There are seventeen concerns the barangay identified and with the available amenities. Financial, Housing and Marital issues are three (3) of the most common problem identified by the barangay.

Table: 1. BARANGAY PROFILE OF MAMPANG

Population		Religious Organization/affiliation	
Average no. per family	No. of families	Religion	No. Individual
11 up	2,083	Islam	7,091
8 to 10	2,125	Christians	20,093
4 to 7	5,363	Iglesia ni Cristo	1,181
1 to 3	3,537	Alliance Church	709
		Jesus is Lord	472
		Born Again	236

Table: 2. SOCIO-ECONOMIC CHARACTERISTICS

No.	Concerns	Available in the community
1	Lot ownership	Lots & Home owned, Lot only, Renting and Squatting
2	House structures	Wooden materials & Concrete
3	Water Facilities	Water district and deep well
4	Electricity	Street lights (ZAMCELCO)
5	Schools	Pre-School, Primary & secondary
6	Health Facility	Barangay Health section
7	Toilet facility	Sanitary
8	Drainage	Closed and open type
9	Place of worship	Chapels & Mosque
10	Business	Sari-Sari Store & Carenderia/Eatery
11	Sport facility	Play ground and Basketball court

12	Road network	Paved and unpaved alley
13	Sanitary GARBAGE	PROPERLY disposed
14	Environmental Sanitation	Presence of plants
15	Means of livelihood	Seaweeds, root crop farming, Rice and Corn farming, Poultry and livestock raising, Fishing, Government and Private employee
16	Monthly income	Below 5,000 and above 15,000
17	Most pressing problem	Financial, Housing and Marital

C. FINDINGS & RECOMMENDATIONS:

<p>1. Dominant ages of active participants are from age bracket of 50 above, decreasing as ages decreases with predominant females</p>	<p>a. The different College's program of the school must come up with different training programs in their mandate to meet the desire of the adapt a barangay constituents for an affordable livelihood with initial capital for a roll-on project.</p> <p>b. Coordinate and link with other agency for possible project funding and encourages commitment and involvement in the project.</p> <p>c. Involved other college program that has the capacity to deliver NC-II programs on the constituent's need.</p> <p>d. Coordinate with other agency for a possible collaboration on the need that are not within the College mandated program that the constituent needs,</p> <p>e. Strengthen coordination with barangay by constant visit for more active engagement for any extension undertakings in the barangay.</p> <p>f. Conduct cleanliness drive together with the barangay officials and constituents to develop rapport and encourage environmental protection rehabilitation and management.</p>
<p>2. High percentage are married with 2-4 siblings</p>	
<p>3. Majority are either High School graduate or High school level predominantly unemployed.</p>	
<p>4. Vast majority considered themselves Zamboangeños and Christian in affiliation and vast majority belonging to poor family with income less than 3,000.</p>	
<p>5. Among likely risk perceive is the need for financial support for livelihood projects and LGU commitment support in the program.</p>	
<p>6. Short term courses preferences is on Baking and pastry production NC-II followed with Commercial cooking NC-II, boat making and other Minced fish preservation</p>	
<p>7. Livelihood- Baking and cooking top the list followed by Fish and Meat processing and preservation of products</p>	
<p>8. Other training needs; skills enhancement seminar, entrepreneurship and a combination of with product packaging and labelling</p>

COLLEGE OF MARITIME EDUCATION

February 21, 2024

Dr. Farida T. Cunanan
OIC-Director
MARINA Region IX

Dear Madam,

This has reference to the earlier discussion on the collaborative undertaking to assist our maritime industry through training and certification. I am pleased to extend this letter to formalize the **partnership** between Zamboanga State College of Marine Sciences and Technology (ZSCMST) and MARINA Region IX for the conduct of the **Basic Navigation and Seamanship Course with Modified Basic Safety Training**, an extension program under our banner **MARINO TECHS**.

ZSCMST is committed to providing quality education and training in the maritime industry, and through this collaboration with MARINA Region IX, we aim to enhance the skills and knowledge of individuals interested in pursuing a career in navigation and seamanship, even those currently engaged in the fishing industry.

The Basic Navigation and Seamanship Course with Modified Basic Safety Training will offer participants a comprehensive learning experience that combines theoretical knowledge with practical skills essential for safe and efficient maritime operations. By leveraging the expertise and resources of both ZSCMST and MARINA Region IX, we are confident that this program will greatly benefit the participants and contribute to the growth of the maritime sector in our region.

We look forward that this initial partnership can be extended through a Memorandum of Understanding on a later date after we assess this program's impact. Attached is the list of deliverables/commitment necessary in this undertaking. Together, we can make a significant impact on the development of competent and skilled maritime professionals within the region, penultimately contributing to the vision of our Maritime Education Program, our Institution and the Regional Development Council.

Thank you for your continued support and collaboration.

Sincerely,

C/E Christalyn DR Chiong

MEMORANDUM OF AGREEMENT

KNOW ALL MEN BY THIS PRESENT

This Memorandum of Agreement is entered into by and between:

The **ZAMBOANGA STATE COLLEGE OF MARINE SCIENCES AND TECHNOLOGY**, a duly recognized state institution of higher learning with principal address at Fort Pilar, Zamboanga City, herein represented by its President **DR. JAIME G. JALON**, of legal age, Filipino and a resident of Putik, Zamboanga City herein referred to as the **FIRST PARTY**;

and

The **BARANGAY COUNCIL OF MAMPANG**, Zamboanga City, represented by its Barangay Chairman the **Hon. LEONARD P. ALIANGAN** of legal age. Filipino and a resident of Mampang, Zamboanga City herein referred to as the **SECOND PARTY**.

WITNESSETH THAT:

WHEREAS, the First and Second Party hereby agreed to the terms and conditions stipulated hereunder relative to the **ADOPT-A-BARANGAY PROGRAM** of the Zamboanga State College of Marine Sciences and Technology (ZSCMST) through its colleges namely: College of Fisheries and Marine Sciences, College of Maritime Education, College of Education and Liberal Arts, and College of Management and Technology.

WHEREAS, the First party is an institution for higher learning, research, development and innovation in fisheries, marine sciences, maritime education and technology and its mission is to provide quality education and relevant research and extension to produce globally competitive capital for fisheries and marine-based industries;

WHEREAS, one of the mandates of the first party is to deliver to its clientele community matured technologies that the institution had developed and tested;

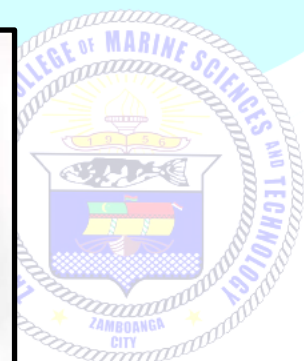

WHEREAS, in order to actively reach out to a greater number of clientele, the First Party will implement the Adopt-A-Barangay model of community extension program;

WHEREAS, the Second Party desires to give opportunities to its people to gain knowledge and adapt the matured technology offered by the First Party through its extension services in the Barangay as a means to uplift the socio-economic status of the poor people through a livelihood endeavor;

NOW THEREFORE, for and in consideration of the foregoing premises the parties mutually declare and agree on their respective responsibilities and other stipulations as follows:

1. The First Party shall adapt the Barangay of Mampang as the Nodal Center in the East Coast of Zamboanga City for the College Extension Activities and Programs. As a Nodal Center, the barangay will become the hub of alternative livelihood trainings on Fisheries Aquaculture, Post Harvest technologies, Marine and Coastal Resource Management, Environment, Food and Management Technology, Maritime Education, Literacy, Gender issues and concerns, information and Educational campaign.

Memorandum of Agreement between ZSCMST and Barangay Mampang, April 2022.

2. The First Party shall provide its available materials and equipment that will be used during the livelihood training and techno-demo activities together with its trainers and facilitators free of charge.

3. The First Party shall conduct the follow-through monitoring of the trainees in all their activities relative to the technology they received in the training and impact assessment after a year of implementation.

4. The First Party shall not be liable for any claim for damages arising from acts, omissions or negligence of the participants/trainees during the training course and neither, shall the first party be liable for damages, death or injuries sustained by the trainees for any cause whatsoever.

5. The Second Party shall be responsible for the venue of the trainings, lecture areas, and support training materials as its barangay counterpart in the training and extension activities.

6. The number of trainees from the Second Party shall not be less than 25 participants or multiple thereof, for every training session. For consultancy, shall not be less than 5 clienteles and at least 8 hours per consultancy for accreditation purposes.

7. The Second Party shall make available the trained participants/beneficiaries for the monitoring and evaluation and on the impact assessment to be conducted by the First Party.

8. This **MEMORANDUM OF AGREEMENT** shall take effect upon signing hereof, and which shall be effective within a period of three (3) years from the date of execution unless earlier terminated by mutual consent of both parties.

IN WITNESS WHEREOF, parties have hereunto affixed their signatures this ____th day of _____ 2022 in the City of Zamboanga.

Development of Project Proposal

Letter Approval from the College President on the conduct of extension program

December 12, 2023

HON. LEONARD P. ALIANGAN
Barangay Chairman
Barangay Mampang, Zamboanga City

Dear Sir,

I am writing on behalf of Zamboanga State College of Marine Sciences and Technology- College of Maritime Education Extension program. We are seeking your approval to conduct a Welding and Wiring training session in Barangay Mampang on December 15-17, 2023.

The training aims to equip participants with essential skills in welding and wiring, which are valuable in various industries and trades. The sessions will cover safety procedures, equipment operation, basic techniques, and hands-on practice to enhance participants' proficiency in these areas.

We believe that offering this training in Barangay Mampang will benefit community members by providing them with valuable skills that can lead to increased employment opportunities and economic empowerment. By hosting this training, we aim to contribute to the development and growth of the local workforce.

We assure you that all necessary safety precautions and protocols will be followed during the training sessions to ensure a safe and conducive learning environment for all participants.

We kindly request your support and assistance in facilitating the logistics for this training. Your approval and cooperation are essential to the success of this initiative.

Thank you for considering our proposal. We look forward to the opportunity to conduct the training in Barangay Mampang in empowering individuals through skills training.

Thank you for your attention to this matter.

Subject: Request for Budget Allocation: Extension Program Collaboration with MARINA Region 9 and Guest Speaker Invitation

Dear Ma'am,

I hope this message finds you well. I am writing to formally request budget allocation from the MEP Foundation to support an upcoming extension program in collaboration with MARINA Region 9. This initiative aims to enhance the training and development opportunities for maritime personnel, with a specific focus on safety, competence, and regulatory compliance.

The collaboration with MARINA Region 9 will allow us to offer an extensive program tailored to the needs of maritime professionals, particularly those operating on vessels with a gross tonnage of 35 or below. The proposed extension program will encompass specialized training modules, workshops, and certification processes to ensure that the participants are well-equipped to navigate the challenges of their roles effectively.

Furthermore, as part of the program, we are honored to extend an invitation to Dr. Farida Cunanan, whose expertise and insights in maritime safety and best practices are highly regarded. We believe that her participation as a guest speaker will significantly enrich the learning experience of the participants and provide invaluable perspectives on the evolving landscape of maritime operations.

The requested budget will be utilized for various aspects of the extension program, including venue rental, training materials, logistical arrangements, participant support, and the honorarium for Dr. Farida Cunanan. We are committed to maximizing the impact of the allocated funds and ensuring that the program achieves its objectives effectively.

We are confident that this collaboration and the involvement of Dr. Farida Cunanan will be instrumental in advancing the professional development and safety standards of maritime personnel in our region. Your support in providing the necessary budget allocation will be pivotal in realizing this endeavor and making a meaningful impact within the maritime community.

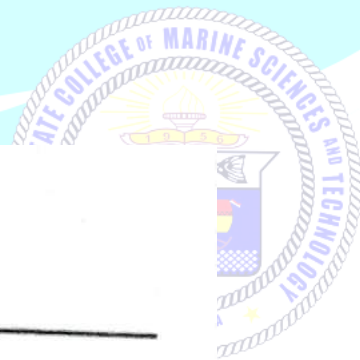

Thank you for considering this request. Please see attach file and we are eager to discuss the details further and provide any additional information required to facilitate the budget allocation process.

Sincerely,

3/E Ivan Jude P. Martinez
 CME Extension Coordinator

Mrs. Georgelita B. Saberon
President MEPPFI

Subject: Request for Financial Assistance for Fisherfolks' Seafarers Identification Book (SIB)

The extension program has integrated essential activities, including the Basic Navigation and Seamanship Course and the Modified Basic Safety Training. These courses were conducted on February 24-25, 2024, and are mandated by MARINA for issuing Seafarers Identification Books (SIB) to fisherfolks operating boats below 35 GT.

In my monitoring conducted on July 19, 2024, it was observed that no fisherfolks have applied for their Seafarers Identification Book (SIB). In light of this situation, we are requesting financial assistance amounting five thousand pesos (5000) to support at least ten (10) fisherfolks in applying for their SIB.

The aim of this financial assistance is to sustain the *livelihoods of our fisherfolks and enhance the Extension Program* of the Bachelor of Science in Marine Transportation (BSMT).

Your support is highly appreciated, Thank you.

Dear Ma'am,

I hope this message finds you well. I am writing to formally request budget allocation from the MEP Foundation to support the continuation extension program which aims to build a small shop in compliance with the AACUP mandatory requirements. Here are the list and initial price of the items needed:

ITEM	QTY	Price	Total Price
1. C Parlin 2" x 3" Galvanize	8	720.00	5,760.00
2. GI Pipe Diameter 3" Schedule 40	2	3,465.00	6,930.00
3. Ribbit	1 pack	350.00	350.00
Grand total:			13,040.00

All items will be properly check and liquidate,
 Thank you and hoping for your positive response.

REQUISITION LETTER

Georgetita Saberon
 MEPFFI President
 CME-ZSCMST

Request for Additional Budget for Construction of Small Shop
 Dear Ma'am,

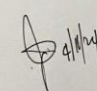

I am writing to request an additional funding for the construction of a small shop dedicated to welding and wiring extension project. As we progress with the project, it has become evident that the initial request may not be sufficient to meet all the requirements for creating a safe and functional workspace. This project is essential to the upcoming AACUP visit this April 22, 2024.

The additional funds will be utilized for the purchase of cement, sand, gravels and other materials.

I have attached a detailed breakdown of the additional costs proposal for your review. Your support in this matter is crucial to the successful implementation of this project and the overall growth of our vocational education program.

Thank you for considering this request.

Sincerely,

 3/E IVAN JUDE P. MARTINEZ
 CME Extension Coordinator

Fund Request to MEPFFI (Maritime Education Parents and Faculty Foundation Inc.) for the construction of the MARINO Tech Small shop for sustainability program for the welding and wiring training adopters

Implementation of Programs, Projects and Activities

During the initial visit to discuss potential collaboration with MARINA IX, key topics were addressed, including the signing of a collaboration agreement and the invitation of Dr. Farida Cunanan, OIC Director of MARINA IX, who was later awarded a Certificate of Appreciation from ZSCMST. The discussions also encompassed the memorandum of understanding, outlining the responsibilities of each party involved. In the implementation phase, several tasks were accomplished, including the success of the Two-Day Basic Navigation and Seamanship Course with Modified Basic Training under the MARINO TECHs Extension Program, which resulted in certificates being awarded to participants, further solidifying the partnership's commitment to enhancing the skills and safety of fisherfolk.

Initial visit to discuss the possible collaboration with Marina IX in

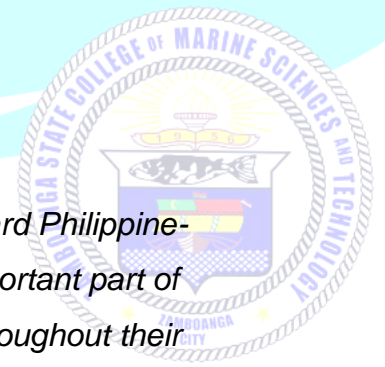

Dr. Farida Cunanan, Regional Director of MARINA IX.

MARINA Circular No. 2010 - 02

Insurance for Seafarer's Identification Book (SIRB) holders onboard Philippine-registered vessels weighing less than 35 gross tons (gt) is an important part of maritime employment, ensuring sailors' welfare and protection throughout their service at sea. While individual regulations and policies may differ, broad principles govern the insurance provisions for these seafarers. In essence, insurance for SIRB holders aboard Philippine-registered vessels under 35 gt acts as a safety net, ensuring that seafarers are covered and supported in the case of unforeseen occurrences while doing their duties at sea. Adherence to rules, accurate documentation, and clear communication among all parties involved are critical to guaranteeing the efficacy of this insurance policy.

INDUSTRY AUTHORITY

MARINA Circular No. 2010 - 02

TO : All Shipping Companies, Fishing Companies, Seafarers, and All Concerned

SUBJECT : **RULES IN THE ISSUANCE OF A SEAFARER'S IDENTIFICATION BOOK (SIB) FOR SEAFARERS ONBOARD PHILIPPINE-REGISTERED VESSELS BELOW 35 GT**

Pursuant to PD 474, Section 12 Paragraph (j) of Executive Order No. 125-A, these guidelines on the issuance of Seafarer's Identification Book (SIB) for seafarers onboard Philippine-registered vessels below 35 GT is hereby adopted:

I. OBJECTIVES

1. To further enhance the safety of life of the passengers onboard vessels; and
2. To prescribe the policies and minimum requirements in the issuance of SIB.

II. COVERAGE/EXEMPTION

- 1.1 These rules shall apply to every seafarer as defined herein and who is engaged in any capacity onboard a Philippine-registered vessel below 35 GT;
- 1.2 Seafarers onboard warships, naval vessels, naval auxiliaries and other government-registered ships are exempted from the application of these rules:

III. DEFINITION OF TERMS

1. MARINA – refers to the Maritime Industry Authority.

2. Modified Basic Safety Training Course (MBSTC)– refers to a customized version with typhoon training course developed by the MARINA of the IMO basic safety training course for seafarers, other vessel personnel complement onboard vessels below 35 GT.
3. Seafarer's Identification Book (SIB) – refers to the document issued by the MARINA to all Filipino seafarers and other ship personnel complement onboard vessels below 35 GT.
4. Seafarer – refers to any person who is employed or engaged or works in any capacity onboard a vessel.

IV. GENERAL PROVISIONS

1. The minimum qualification requirements for the issuance of SIB are as follows: a) must be a Filipino citizen, and b) 18 years of age.
2. All seafarers covered by this Circular must be properly documented and shall possess valid SIB at all times.
3. All maritime enterprises operating Philippine-registered vessels below 35 GT shall ensure that seafarers onboard their vessels possess valid SIB.
4. All applications for the issuance of SIB shall be filed personally by the applicant to MARINA or in any of its recognized service providers.
5. The MARINA, upon the request of shipping/fishing companies/ operators and other maritime entities, may dispatch the MARINA SIB Mobile Team for on-site processing.
6. All seafarers covered by this Circular shall be required to undergo the Modified Basic Safety Training Course (MBSTC) in comic version with typhoon awareness which shall be conducted by MTC-accredited training centers and PAMTCI member training centers.
7. Retraining shall be required of holder of MBSTC for seafarer who has not served onboard for at least a year within five (5) years from the date of issuance of MBSTC certificates or date of last disembarkation;
8. Seafarers who have gone onboard for at least one (1) year in the last five (5) years will no longer be required to present the MBSTC certificates when they apply for re-issuance of or replacement of lost SIB.

V. SPECIFIC PROVISIONS

1. The Typhoon Awareness has the following modules

- Introduction
- The Tropical Cyclone
- Salient Features of Typhoons
- Frequency of Tropical Cyclones
- Distinguishing Characteristics of Tropical Cyclones
- Types of Weather Bulletins
- Maneuvering in a Stormy Sea
- Actions to be Undertaken When in the Vicinity of a Storm
- Practical Rules for Avoiding the Center of the Storm
- Guiding Principles of Surviving the Mountainous Sea
- Sheltering Areas During Stormy Weather
- Framework of Concerned Government Agencies on Disaster Management
- Responsibilities of Each Agency During Emergency

2

2. The MBST has four (4) modules as follows:

- Elementary First Aid
- Personal Survival Technique
- Fire Prevention and Fire Fighting
- Personal Safety and Social Responsibility

3. Documentary Requirements

Particulars	ON DOCUMENT	New	Lost or Damaged
	Birth Certificate on NSO SECPA or Passport		
	SECURITY DOCUMENT	Re Issuance	Regular application
	PERSONAL IDENTIFICATI	Regular application	

SAFETY TRAINING CERTIFICATE
 NBI Clearance (for local employment only)

* Replacement of lost SIB accompanied with marine protest or proof of accident/damage shall be charged the same fee as with the New/Re issuance.

VIII. RESPONSIBILITIES OF OPERATORS/ SHIPPING COMPANIES/ MANNING AGENCIES/ MARITIME INSTITUTIONS/ SEAFARERS

1. All shipping companies/ manning agencies/operators covered by this Circular shall ensure:

- a. That all Filipino seafarers onboard Philippine-registered vessels shall hold valid SIB at all times;
- b. The genuineness and authenticity of all documents and supporting papers of every seafarer where the application is endorsed by the operators/shipping company/manning agency; and
- c. That the seafarers shall be engaged/shall provide services with due regard to the applicable limitations specified in the SIB.

2. All seafarers covered by this Circular shall:

- a. Secure a valid SIB before going on board/ joining-a vessel.
- b. Submit authentic documents and/or papers in support of his application for the issuance of SIB.

4

IX. ADMINISTRATIVE SANCTIONS

1. A seafarer's SIB may be suspended/revoked after due process for any of the following grounds:

- 1.1 Suspension of SIB:
 - 2.1.1 Negligence or incapacity in the performance of duty;
 - 2.1.2 Intemperate habits such as drunkenness tending to cause immediate loss or destruction or serious damage to the vessel or tending to endanger the life of any person organic to or passenger of such vessel;
 - 2.1.3 Insubordination or direct assault;
 - 2.1.4 Violations of the terms and conditions of the contract without just cause;
 - 2.1.5 Repeated violations of any of the provisions of this

Modified Basic Safety Training Certificate in comic version with typhoon awareness

REQUIREMENTS

MARINA License (for

ADDITIONAL

licensed officers) Original SIRB, as

applicable Original SIB

SUPPLEMENTARY REQUIREMENTS

Photocopy of SIB or Service Record Duly Notarized Affidavit of Loss or Damage, as applicable

Documentary stamp

3

VI. VALIDITY

1. The SIB shall be valid for five (5) years.
2. Replacement of damaged/lost - the validity period shall be the unexpired portion of the previously issued SIB

VII. FEES AND CHARGES

Type of Application	Fees
New/ Re-issuance	P 350.00
Replacement of Lost SIB* ♦ 1 st Time ♦ Succeeding issuance	P 500.00 Double the cost of last replacement

Circular.

1.2 Revocation of SIB:

- 1.2.1 Assault with dangerous weapon;
- 1.2.2 Malicious destruction of vessels property;
- 1.2.3 Misconduct resulting in the loss of life and/or serious injury;
- 1.2.4 Molestation of passenger and/or crew;
- 1.2.5 Murder or attempted murder;
- 1.2.6 Mutiny;
- 1.2.7 Possession, use, sale or association with prohibited drugs, including marijuana;
- 1.2.8 Smuggling of aliens or undeclared personal effects including firearms and ammunition;
- 1.2.9 For misrepresentation or submission of any false statement, fraudulent or tampered certificates or documents;
- 1.2.10 Desertion;
- 1.2.11 Terrorist activities
- 1.2.12 Other violations under the Philippine Penal Laws.

5

X. ADMINISTRATIVE FINES AND/OR PENALTIES

1. An operator/shipping/fishing company shall be liable for the following acts:

1.1 For deploying a seafarer without SIB onboard vessel;

First Offense P 5,000.00
 Second offense 10,000.00
 Third and Succeeding Offenses 15,000.00

1.2 For deploying a seafarer onboard with SIB, the validity of which is shorter than his/her contract;

First Offense P 10,000.00
 Second offense 20,000.00

Third and Succeeding Offenses 30,000.00

1.3 For allowing a seafarer to continue serving onboard with expired SIB:

First Offense P 2,500.00
 Second offense 5,000.00
 Third and Succeeding Offenses 10,000.00

1.4 For requesting or recommending issuance of SIB for and/or in behalf of a seafarer whose documents have been tampered by the operator/shipping/fishing company or any of their employees or liaison officers/messengers, or where said company/employee or liaison officer has participated in securing the tampered documents from any source:

First Offense	P 10,000.00
Second Offense	P 20,000.00 and recommendation to proper government agency for the suspension of Company's license.
Third Offense	P 30,000.00 and recommendation to proper government agency for the cancellation and/or revocation of the company's license.

1.5 In addition, responsible officials/employees of the company/agency/operator or employee/liaison officer/messenger shall be subject to criminal prosecution under the Revised Penal Code;

2. A seafarer shall be liable for the following acts:

2.1 For going onboard vessel / joining vessel without a valid SIB.

First Offense P 2,000.00
 Second offense 3,000.00
 Third and Succeeding Offenses 5,000.00

2.2 For misrepresentation or submission of any false statement, fraudulent or tampered certificates or documents.

Particulars	First Offense	Second Offense	Third and Succeeding Offense

Officers	5,000.00	10,000.00	15,000.00
----------	----------	-----------	-----------

Ratings/Others	2,000.00	3,000.00	5,000.00
----------------	----------	----------	----------

2.3 For holding fake/tampered/forged SIB.

	First Offense	Second Offense
Officers	Php 10,000.00 + confiscation and cancellation + disqualification from issuance of SIB for one (1) year	Php 20,000 + Permanent Disqualification from issuance of SIB
Ratings/ Others	5,000.00 + confiscation and cancellation + disqualification from issuance of SIB for one (1) year	Php 10,000 + Permanent Disqualification from issuance of SIB

2.4 The imposition of penalties under items 2.2 & 2.3 shall be without prejudice to criminal prosecution under the Revised Penal Code.

XI. STANDARD PROCESSING TIME

All SIB applications shall be subject to the following:

1. Expedite – released within four (4) working hours reckoned from the time of evaluation;
2. Regular - released within eight (8) working hours reckoned from the time of evaluation;

XII. SEPARABILITY CLAUSE

Should any part of these Rules be declared null and void, the same shall not affect the validity of the remaining part.

XIII. TRANSITORY PERIOD

In order to foster effective implementation of the herein guidelines, MARINA shall commence the conduct of MBST in comic version with typhoon awareness programs required for the issuance of SIB for seafarers onboard vessels below 35 GT by 15 January 2011.

By 01 July 2011, all operators/shipping companies, fishing companies, seafarers, and all concerned, shall have complied with the requirements of this Circular.

XIV. EFFECTIVITY

This Circular shall take effect fifteen (15) calendar days upon its publications once in a newspaper of general circulation.

Manila, Philippines, 14 December 2010.

COLLEGE OF MARITIME EDUCATION

February 21, 2024
Dr. Farida T. Cunanan
OIC-Director
MARINA Region IX

Dear Madam,
This has reference to the earlier discussion on the collaborative undertaking to assist our maritime industry through training and certification. I am pleased to extend this letter to formalize the partnership between Zamboanga State College of Marine Sciences and Technology (ZSCMST) and MARINA Region IX for the conduct of the **Basic Navigation and Seamanship Course with Modified Basic Safety Training**, an extension program under our banner **MARINO TECHS**.

ZSCMST is committed to providing quality education and training in the maritime industry, and through this collaboration with MARINA Region IX, we aim to enhance the skills and knowledge of individuals interested in pursuing a career in navigation and seamanship, even those currently engaged in the fishing industry.

The Basic Navigation and Seamanship Course with Modified Basic Safety Training will offer participants a comprehensive learning experience that combines theoretical knowledge with practical skills essential for safe and efficient maritime operations. By leveraging the expertise and resources of both ZSCMST and MARINA Region IX, we are confident that this program will greatly benefit the participants and contribute to the growth of the maritime sector in our region.

We look forward that this initial partnership can be extended through a Memorandum of Understanding on a later date after we assess this program's impact. Attached is the list of deliverables/commitment necessary in this undertaking. Together, we can make a significant impact on the development of competent and skilled maritime professionals within the region, penultimately contributing to the vision of our Maritime Education Program, our Institution and the Regional Development Council.

Thank you for your continued support and collaboration.

Sincerely,

C/E Christalyn Dr. Chiong
CME College Dean

February 19, 2024

Dr. Jaime G. Jalon
 College President
 Zamboanga State College of Marine Sciences and Technology

Dear Dr. Jalon,

I trust this letter finds you well. I am writing to formally request your support and approval for the conduct of Extension Program of College of Maritime Education in collaboration with **MARINA Region 9** office at Barangay Mampang on February 24-25, 2024. The program aims to provide essential training and educational outreach to the residents of Barangay Mampang, particularly focusing on topics relevant to their community and livelihood.

The proposed extension program will be centered around a series of workshops and training sessions designed to address the specific needs of the community. One of the key initiatives is the **Basic Navigation and Seamanship Course**, which aims to equip the fisherfolks of Barangay Mampang with essential maritime skills, safety practices, regulatory awareness help them to acquire **Seafarers booklet** which certify them as registered seafarer on vessels/Boat with 35 gross tonnage or below. This training is crucial in ensuring the competence and well-being of our local maritime workforce.

In light of this, we kindly seek your approval to the conduct of the extension program at Barangay Mampang will be pivotal in advancing the goals of community empowerment, knowledge dissemination, and capacity building.

We assure you that all necessary arrangements, including the proper use of facilities and adherence to scheduling and operational guidelines, will be meticulously coordinated to ensure minimal disruption to the school's activities.

Thank you for considering our request. We are eager to discuss the details further and provide any additional information required to facilitate the Extension training.

Very truly yours,

HON. LEONARD P. ALIANGAN
 Barangay Chairman
 Barangay Mampang, Zamboanga City

Dear Sir,

I am writing on behalf of Zamboanga State College of Marine Sciences and Technology- College of Maritime Education Extension program. We are seeking your approval to conduct a **Welding and Wiring training session** in Barangay Mampang on December 15-17, 2023.

The training aims to equip participants with essential skills in welding and wiring, which are valuable in various industries and trades. The sessions will cover safety procedures, equipment operation, basic techniques, and hands-on practice to enhance participants' proficiency in these areas.

We believe that offering this training in Barangay Mampang will benefit community members by providing them with valuable skills that can lead to increased employment opportunities and economic empowerment. By hosting this training, we aim to contribute to the development and growth of the local workforce.

We assure you that all necessary safety precautions and protocols will be followed during the training sessions to ensure a safe and conducive learning environment for all participants.

We kindly request your support and assistance in facilitating the logistics for this training program. Your approval and cooperation are essential to the success of this initiative.

Thank you for considering our proposal. We look forward to the opportunity to collaborate with Barangay Mampang in empowering individuals through skills training.

Thank you for your attention to this matter.

Sincerely,

3/E IVAN JUDE P. MARTINEZ
 CME Extension Coordinator

Monitoring and Evaluation of projects and activities

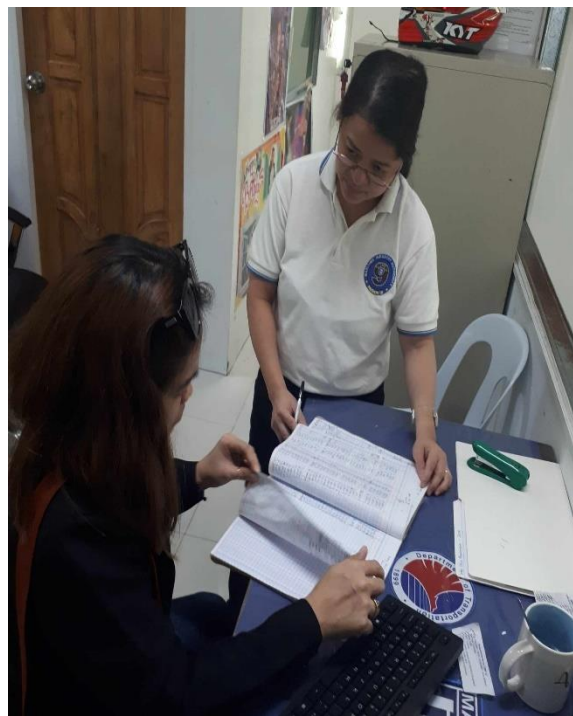

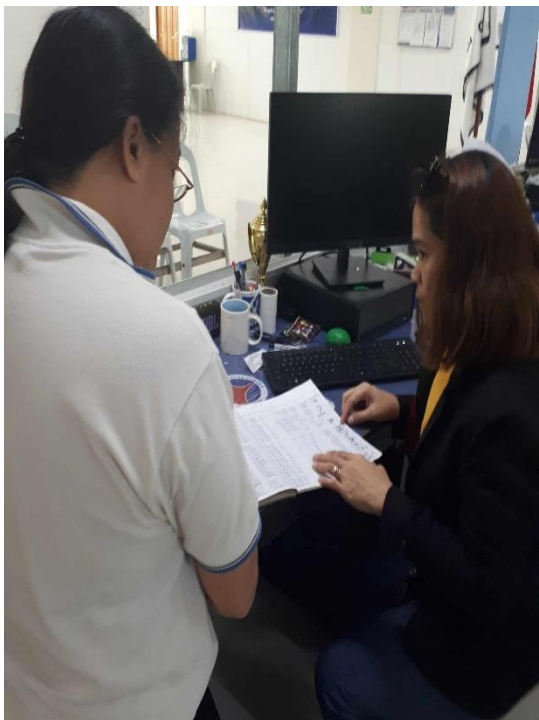

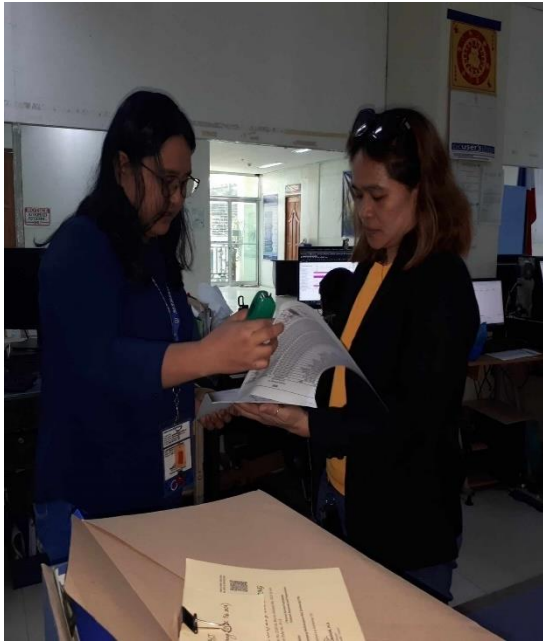

Basic Navigation and Seamanship Course with Modified Basic Safety Training under the MARINO TECHs Extension Program

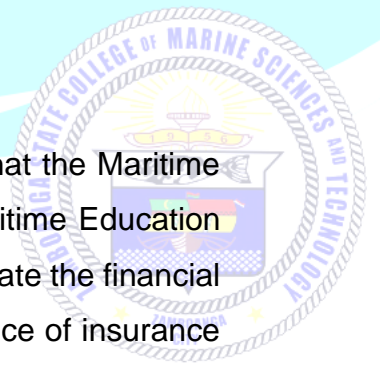

Captain Marnette M. Apit conducted a follow-up visit to the MARINA three months later to monitor the project's progress last July 19, 2024.

During the visitation, Captain Apit discovered that, following the program, no fisherfolk returned to the MARINA to secure their insurance as SIRB holders aboard Philippine-registered vessels under 35 GT. This insurance acts as a crucial safety net, ensuring that seafarers are protected and supported in unforeseen circumstances while performing their duties at sea. Captain Apit expressed concern over this lack of engagement, emphasizing the need for better outreach and education to encourage fisherfolk to take advantage of these essential safety provisions.

In response to the concerning trend, Captain Apit proposed that the Maritime Education Program Foundation Inc. (MEPPFI) of the College of Maritime Education sponsor ten fisherfolk to obtain their SIRB. This initiative aims to alleviate the financial burden on the individuals while promoting awareness of the importance of insurance coverage for their safety at sea.

September 10, 2024

Mrs. Georgelita B. Saberon
 President MEPPFI

Subject: Request for Financial Assistance for Fisherfolks' Seafarers Identification Book (SIB)

The extension program has integrated essential activities, including the Basic Navigation and Seamanship Course and the Modified Basic Safety Training. These courses were conducted on February 24-25, 2024, and are mandated by MARINA for issuing Seafarers Identification Books (SIB) to fisherfolks operating boats below 35 GT.

In my monitoring conducted on July 19, 2024, it was observed that no fisherfolks have applied for their Seafarers Identification Book (SIB). In light of this situation, we are requesting financial assistance amounting five thousand pesos (5000) to support at least ten (10) fisherfolks in applying for their SIB.

The aim of this financial assistance is to sustain the *livelihoods of our fisherfolks and enhance the Extension Program* of the Bachelor of Science in Marine Transportation (BSMT).

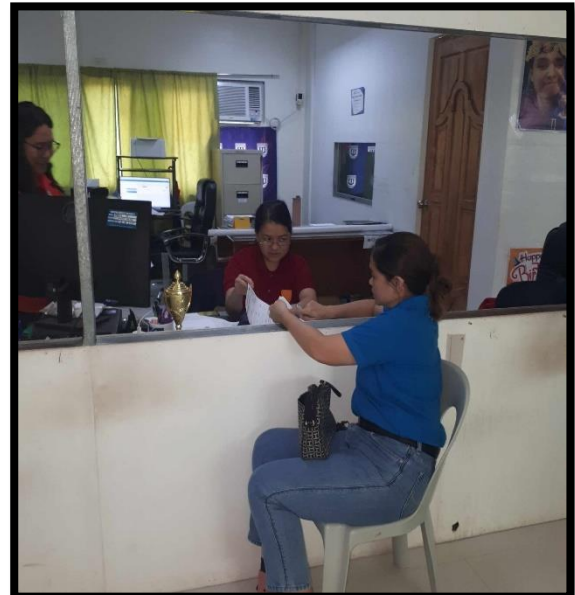

Your support is highly appreciated, Thank you.

HON. LEONARD P. ALIANGAN
 Chairman, Barangay Mampang

Sir:

Greetings of peace and solidarity!

The College of Maritime Education will conduct a **monitoring activity for the fisherfolk** of Barangay Mampang regarding Basic Navigation and Seamanship with Modified Basic Training. This activity is scheduled for August 17, 2024 (Saturday).

We kindly request the barangay's support in informing and gathering the fisherfolk who will participate in the monitoring. Your assistance in coordinating the event will contribute greatly to its success.

We look forward to your favorable response and continued cooperation.

Thank you, and we are excited to work with you to empower our fisherfolk community.

Yours sincerely,

CERTIFICATE OF ATTENDANCE

This certifies that **REY CHRISTIAN B. TAROG** has attended Monitoring Activity in Barangay Mampang as part of the **BASIC NAVIGATION AND SEAMANSHIP COURSE WITH MODIFIED BASIC NAVIGATION** conducted on **August 17, 2024** at **Barangay Mampang, Zamboanga City.**

This activity was organized to support the objectives of **BASIC NAVIGATION AND SEAMANSHIP COURSE WITH MODIFIED BASIC NAVIGATION** in providing trainings, community service and livelihood programs.

Issued this **17th day of August, 2024.**

HON. LEONARD P. ALIANGAN
 Barangay Chairman

The second monitoring, however, was carried out by Cadet 2nd Class Tarog, a student facilitator of the MBSTC program, who traveled to Mampang personally to keep an eye on the fisherfolk's conditions.

Along with their approval that Capt. Apit would file their SIBs on their behalf, the fishermen gave Cadet 2nd Class Tarog their requests, which he subsequently forwarded to Capt. Apit who promptly processed their SIB's

The SIB's of the 10 eligible fisherfolks were then released last November 15, 2024

October 03, 2024

Training Title	Basic Navigation and Seamanship with Modified Basic Training
Date	February 24-25, 2024
Venue	Multi-purpose Hall, Barangay Mampang, Zamboanga City
Partner Organization	Maritime Industry Authority, Region IX and Barangay Council of Mampang
Participants	Fisherfolks of Barangay Mampang
Concerned Units/Personnel	3/E Ivan Jude P. Martinez- CME Extension Coordinator Prof. Marlon R. Omatang- Director, Training & Extension Office Capt. Marnette M. Apit Capt. Edmundo Laurente 2/M Risil O. Ybera CME Faculty and BSMT students

Training Summary:

From February 24th - 25th, 2024, the College of Maritime Education, in partnership with MARINA Region 9, organized a comprehensive two-day extension program focused on Basic Navigation and Seamanship with Modified Basic Training. Held in Barangay Mampang, Zamboanga City, this initiative aimed to equip participants, including fisherfolks and maritime students, with essential skills and knowledge for safe and efficient maritime operations. By bringing together fisherfolks and maritime students as participants and facilitators, the program fostered knowledge exchange and community engagement, empowering participants with essential skills and expertise.

Day 1: Basic Navigation and Seamanship Course

The first day started with the preliminaries, where **Capt. Edmundo P. Laurente** gave the **welcome remarks** and introduced the speakers.

In the **morning session**, **Capt. Marnette M. Apit, MATMT** discussed **Basic Navigation**, focusing on the importance of understanding **maritime rules and regulations**. Participants also engaged in a **group discussion**, where they explored real-life scenarios and how maritime concepts are applied in practice.

After the **lunch break**, the **afternoon session** was led by **OIC-NW Risil O. Ybera**, who covered **Basic Seamanship** and taught the participants how to tie essential knots through a hands-on **Basic Knot Tying** activity. The day ended with participants gaining both theoretical and practical knowledge to improve their maritime skills.

Day 2: Modified Basic Safety Training

On the second day, the preliminaries included the introduction of **Dr. Farida T. Cunanan, OIC-RD, MARINA IX**, as the speaker. The training covered key safety topics:

- Fire Prevention and Fire Fighting
- Elementary First Aid
- Personal Survival Techniques

- Personal Safety and Social Responsibility
- Typhoon Awareness

After the **lunch break**, the program concluded with the **Awarding Ceremony**, recognizing the participants' efforts. The event ended with **closing remarks** by **OIC-EW Ivan Jude P. Martinez**, thanking everyone for their participation.

The program successfully equipped participants with essential navigation, seamanship, and safety skills, contributing to the development of safer maritime practices.

MARINO Techs (Mariners Advancing Regional Industries through Novel Technologies) Extension program Welding and Wiring Training, December 15-17, 2023

Quarterly Monitoring

On March 5, 2024, a face-to-face interview was conducted at the Elisberto residence with participants of the MARINO Techs Welding Program, one of whom is a beneficiary and adopter of the initiative. A total of five adopters were interviewed individually—four specializing in welding and one in electrical wiring.

During the interviews, it was revealed that the participants were able to apply the skills acquired from the training in sideline jobs and their daily activities. Although the income generated from these sidelines is modest, the participants expressed their intention to continue to the next phase of the program. This next stage will serve as a preparatory step for TESDA accreditation, which will qualify them to obtain NC I and NC II certifications upon successful assessment.

CME Faculty together with 5 beneficiaries for the quarterly monitoring

Mr. Elisberto Arieta

Mr. Ely Barrera

Mr. Jayson Cristobal

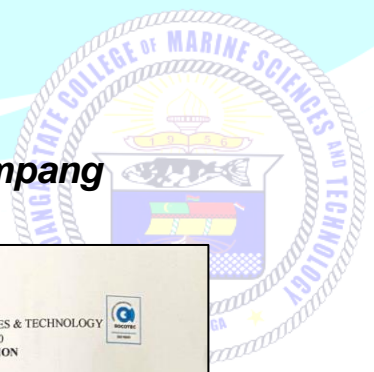

Mr. Rocelo Asajar

Mr. Jayvee Arieta

COLLEGE OF MARITIME EDUCATION

MARCH 04, 2024

HON. LEONARD P. ALIANGAN
 Barangay Chairman
 Barangay Mampang, Zamboanga City

Dear Hon. Aliangan,

Warm greetings! We are writing to request your kind approval to conduct monitoring activities in Barangay Mampang as part of our CME "MARINO Tech" Extension Program: welding and wiring training

The monitoring activity is planned for March 5, 2024 and will focus on evaluating the progress of the project, gathering feedback from beneficiaries, and identifying opportunities for improvement. These efforts are essential to ensure that the project remains aligned with its goals and continues to make a positive impact on the community.

We kindly request your approval to proceed with this activity. Should you need additional information or wish to discuss this further, please feel free to contact us at 09668897415.

Thank you for your support and partnership in this meaningful endeavor. We look forward to your positive response.

Sincerely,

3/E Ivan Jude P. Martinez

MARINO TECHS
 WELDING AND WIRING TRAINING

March 05, 2024

Dr. Jaime G. Jalon
 College President
 This College

Dear Dr. Jalon,

I am writing to formally request your approval to conduct monitoring activities in Barangay Mampang as part of our ongoing CME "MARINO Tech" Extension Program: welding and wiring training which aims to promote community development and provide livelihood training to the community of Barangay Mampang.

The monitoring activity is proposed to be conducted on March 5, 2024 and its purpose is to assess the progress of the initiatives implemented, gather feedback from the beneficiaries, and evaluate areas for improvement. This will ensure the continued effectiveness and relevance of the project to the needs of the community.

I respectfully seek your approval for this activity and would be glad to provide any additional information or documentation you may require. Thank you for your continued support in advancing the mission of our institution to contribute meaningfully to the community.

Looking forward to your favorable response.

Sincerely,

Ivan Jude P. Martinez

December	3,200.00	600.00	2,600.00
Total	21,600.00	7,400.00	14,200.00

Income Report and Background of Mr. Elisberto and Mr. Jayvee Arieta (2023)

The table above presents the income of Mr. Elisberto and Mr. Jayvee Arieta for 2023, with the majority of their earnings generated from small welding projects.

Background

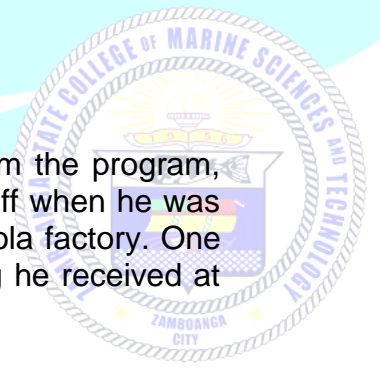

Both Mr. Elisberto and Mr. Jayvee Arieta participated in the 2019 Extension Welding Program. After the pandemic, Mr. Elisberto successfully applied his welding skills to his shop, which primarily focuses on motorcycle repair and customization. The training enabled him to increase his income by taking on additional customer projects, particularly in custom accessories.

In the second quarter of 2023, Mr. Elisberto expanded his operations by hiring his nephew, Mr. Jayvee Arieta, who also completed the same welding program. Initially, Mr. Jayvee took on sideline welding jobs in Barangay Lapuyan, located on the East Coast of Zamboanga. However, the high travel costs between his residence in Barangay Mampang and Lapuyan made it challenging to sustain his income. As a result, he decided to join his uncle's shop in May 2023.

Currently, Mr. Elisberto and Mr. Jayvee operate their shop using a pakyawan (project-based) system, accepting welding and repair jobs. To support their livelihood and enhance their operations, the CME Marino Techs Extension Program donated materials and basic equipment, enabling them to establish the Marino Techs Metals Works and Repair Shop. This new facility not only strengthens their capacity to take on more metalworking projects but also provides future adopters of the CME Marino Techs Program with opportunities to develop their skills and improve their income.

Jayvee Arieta's Journey

Jayvee Arieta's story is one of perseverance and determination. In December 2023, he embarked on a life-changing path by enrolling in a welding training program offered by the "MARINO Techs" Extension Program. Building on this foundation, he committed to advancing his skills, successfully completing the next phase of training between June and November 2024.

Armed with hands-on experience and a comprehensive skill set from the program, Jayvee set out to find meaningful employment. His dedication paid off when he was hired as a contractual Mechanic Maintenance worker at the Coca-Cola factory. One of the key factors in securing this position was the quality of training he received at MARINO Techs, which greatly enhanced his credentials.

Jayvee's uncle, Mr. Elisberto Arieta, also played a pivotal role in this milestone by providing a strong recommendation that highlighted Jayvee's work ethic and capabilities. Today, Jayvee takes pride in his new role, maintaining and repairing machinery at the factory. His journey serves as a testament to the transformative power of education, skill-building, and unwavering support from family.

Adaptors of 2023 CME-MARINO Techs Extension Welding and Wiring Program

Ely Barrera

Ely utilizes his training as a source of additional income. A senior high school student specializing in automotive at Talon-Talon National High School, he assists his uncle on welding and other tasks during weekends and free days. For each job completed, he earns between 300 and 350 pesos.

Norellenitzel Fidel

Norellenitzel takes on welding jobs at his home on a project-based arrangement. His earnings vary depending on the size of the project. Occasionally, he collaborates with Ely Barrera on welding tasks from neighbors. Recently, they worked on assembling and attaching a sidecar to a motorcycle, expecting a payment of 2,000 pesos.

Jayson Cristobal

Jayson applies his training by taking on welding jobs under the Pakyawon system. Operating from his residence, he earns an average of 1,500 pesos monthly.

Ronan Kleford Estrada

Ronan, a working student attending an ALS program, takes on construction projects during his free time. He earns about 350 pesos per job and also incorporates his welding training into his construction work.

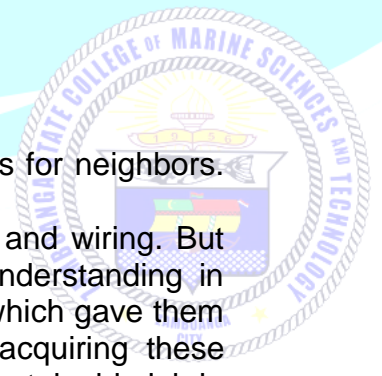

Vincent Alberca

Vincent works as a welder on a part-time basis, leveraging his recently acquired skills. His monthly income ranges between 5,000 and 8,000 pesos. Currently, he is involved in a house construction project for a relative, operating under a project-based arrangement with steel framework.

Rocelo Asajar

Rocelo, though currently unemployed, performs basic wiring installations in his community. After completing training from MARINO Techs, his confidence and job opportunities in wiring installations grew. He typically earns 200 pesos per project.

Ramelecion Trupa

Ramelecion specializes in small-scale wiring installations and repairs for neighbors. His earnings average around 300 pesos per project. All participants have less knowledge and understanding of welding and wiring. But through MARINO Techs, they gained additional knowledge and understanding in these fields. They all wanted to proceed with the Phase 3 program, which gave them a chance to acquire the NC 2 certificate from TESDA. And by acquiring these certificates, they have a bigger chance to acquire a permanent and sustainable job in the future.

Prepared by:

 3/E IVAN JUDE P. MARTINEZ
 CME Extension Coordinator

Validated by:

 MARLON OMATANG
 Training and Extension Office Director

As presented in Table 2, the monitoring and evaluation of the CME extension activities on Skills Training on Metal Arc-Welding as of 2023, 4 out 28 or 14.29% of the participants were able to find a job as a worker who works for an employer, under contract where an individual undertakes to do personal work or services as a welder with a salary ranging depending on the number of days they rendered. One of them decided to pursue a college degree and became a full time student and the other one migrated outside of Zamboanga City.

On the Skills Training on Building Wiring and Maintenance, there was 1 out of 28, or 3.57% of the participants was able to land a job as an electrician under contract with a salary also depending on the number of days they rendered.

On the other hand, our beneficiaries were able to gain knowledge on the awareness of proper ways on conducting wiring and welding operation. Also gained knowledge on Basic First Aid for burn, Electric shock and other types of injuries that can be encountered on Welding and Wiring Operation if negligence occurs.

Impact Assessment of the Project

– all project funded and implemented by the different colleges will be subjected to impact assessment by the Director of Training and Extension and his staff after a year of completion of the project. This is to determine whether or not our presence in a certain barangay was felt by the people of the said barangay and that whether the quality of their lives improved because of our interventions.

Results/Outcomes

– results will be evaluated whether or not the quality of their lives improved because of the project. If good, present and disseminate the results, if not good replicate and develop a community driven program for extension.

Presentation and Dissemination

-Paper presentation and or poster presentation, regional, national, and international are highly encouraged to give an impact and distinction of the extension services of the College.

Publication

– Paper publication, non-refereed regional journal, national refereed journal, and or national refereed journal are also encouraging faculty handling extension service for wider dissemination and reference purposes.

REASONABLE BUDGET

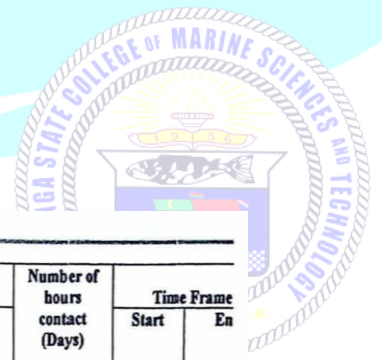

Source of Fund for Extension and Training Operation

To defray expenses for Extension and Training Operations, a budgetary allocation of a minimum 5% from GAA and a minimum of 10% from ZSCMST Income shall be set aside and allocated for this purpose.

PROVISION OF MATERIALS & OTHER RESOURCES

Materials used during MARINO Techs Welding and Wiring training:

1. Welding machine
2. Electrical Demonstration Board
3. Welding rods
4. Angle Bars
5. Angle Grinders
6. Wires and Cables
7. Breaker Switch

ZSCMST provided welding machines to participants for the practical activity, which was led by Prof Ronilo Jayson and assisted by 2/M Edwin Narca.

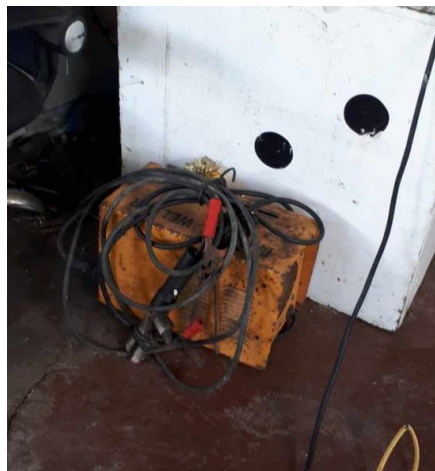

The ZSCMST Foton truck was utilized to transport people and materials from school to Barangay Mampang, and vice versa.

2/M Ricardo Quiaoit explain the proper process through using dummy

Materials used on building MARINO Techs shop:

1. C Purlin
2. GI Pipe
3. Round bar
4. Welding Rod
5. Grinding Disk
6. Welding Machine
7. Angle Grinder

Two-Day Extension Program in Basic Navigation and Seamanship Course with Modified Basic Safety Training on February 24-25, 2024

From February 24th - 25th, 2024, the College of Maritime Education, in partnership with MARINA Region 9, organized a comprehensive two-day extension program focused on Basic Navigation and Seamanship with Modified Basic Training. Held in Barangay Mampang, Zamboanga City, this initiative aimed to equip participants, including fisherfolks and maritime students, with essential skills and knowledge for safe and efficient maritime operations. By bringing together fisherfolks and maritime students as participants and facilitators, the program fostered knowledge exchange and community engagement, empowering participants with essential skills and expertise.

The Modified Basic Safety Training Course (MBSTC) refers to a customized version with typhoon training course developed by the MARINA of the IMO basic safety training course for seafarers, other vessel personnel complement onboard vessels below 35 GT.

Releasing of Seafarers Identification Book November 15, 2024

On November 15, 2024 at Barangay Mampang, Zamboanga City, ten fisherfolks received their Seafarers Identification Books (SIB) after completing the Basic Navigation and Seamanship Course with Modified Basic Training. This achievement was made possible through the sponsorship of the Maritime Education Parents Program Foundation, Inc., which covered the cost of the SIBs. This milestone is a significant step for the fisherfolks, providing them with important credentials to advance their maritime careers.

MARINO Tech Welding and Wiring Phase 3 Project Proposal

Republic of the Philippines
Zamboanga State College of Marine Sciences and Technology
 College of Maritime Education
 Fort Pilar, Zamboanga City

Mariners Advancing Regional Industries through Novel Technologies: **MARINO TECHS**
 "Enabling Marine and Maritime Communities through Livelihood and Technologies"

Title of Project : Phase 3: CME-Community Extension Projects and Basic Navigation and Seamanship Course (BaNaSCo)
 For AY: 2023-2024

Proponent : 3/E Ivan Jude P. Martinez
 C/E Christalyn D.R. Chiong
 Capt. Marnette Apit
 Marlon R. Omatang
 George S. Lauriaga Jr.

Location of Beneficiaries : Barangay Mampang, Zamboanga City

Date of Implementation : February–December, 2024

Source of Funding : STF-Tuition and other fees

Project Cost : 100,000.00

Rationale:
 Community Extension Services is an essential function of higher education institutions that derives its plans and programs for the delivery of community services from instruction and research. Conducting community extension service is about relationships in building communities through teaching. The programs and activities are geared toward helping people by empowering themselves through sustainable programs and enabling the programs to reach and "touch the lives" of communities and the environment through services that transfer knowledge and technologies to create an impact on holistic and sustainable development programs and people empowerment.

 COLLEGE OF MARITIME EDUCATION

MARINO TECHS
 WELDING AND WIRING TRAINING

May 03, 2024

Dr. Jaime G. Jalon
 College President
 This College

Subject: Request Approval for weekly Welding and Wiring Training in Campus

Dear Dr. Jalon,

This has reference to the approved extension program of the college **MARINO Techs: Maritime Teachers Teach Technology**. The program aims to provide practical skills training to our participants in the field of welding and wiring to enhance their technical knowledge and improve their employability. As we are now on Phase 3 of the program implementation, I would like to request for the approval to conduct Welding and Wiring Training at school campus (CME Machine shop and CME Electro-Laboratory).

Specifically, the training sessions are scheduled every Saturday from May to July 2024. The participants will gain hands-on experience and industry-relevant skills that will benefit them in their future careers by conducting this training in campus. The training will be facilitated by qualified instructors from College of Maritime Education, ensuring high-quality education and professional guidance throughout the program. We believe that this program will not only enrich the learning experience of our participants but also contribute to the overall growth of our educational institution. A separate attachment referring to the program flow with the assigned faculty and their specific task will be provided.

In view hereof, I am requesting for the approved work schedule of faculty involved (See attached list) and the access of Mampang resident trainees (List of names attached) on the schedule training dates along with the approved use of the facilities and equipment.

Thank you very much for your continued support.

Respectfully yours,

3/E IVAN JUDE P. MARTINEZ

24th National Maritime Week was conducted along with the Coastal Clean-up of our Campus

The 24th National Maritime Week Celebration held on September 23, 2023, marked a significant event for the College of Maritime Education as it coincided with a Coastal Clean-Up initiative. Faculty and students united in a shared commitment to maritime awareness and environmental stewardship, making it a memorable and impactful day.

Capt. Alvin Selisana, Capt. Edmundo Laurente, Capt. Marnette Apit, 2/M Elcid Aranan and 2/M Edwin Narca is with us in keeping our coastal clean.

24th National Maritime Week, Maritime students get together to have the school's coastal area clean and away from marine pollution

24rd National Maritime Week 2023, 21st of January “MASS BLOOD Donation”

On January 21, 2023, the Maritime Education Program took a proactive step towards community service by spearheading a "MASS BLOOD Donation" advocacy program. Held in the Octagon Hall, this initiative aimed to contribute to the well-being of individuals in need of blood transfusions by donating a significant amount of blood to the Red Cross Blood Bank.

The Red Cross has provided a list of ZSCMST's CME students who have donated blood in year 2023.

Basic Life Support & Hygiene Training

The one day skills training aims to provide basic skills training on safety at home and at sea. The training was done as part of the adopt-a-barangay program of the CME. The skills training include lecture and demonstration of the resource speakers as well as workshop (hands-on) of the participants. The participants were trained in basic life support and Hygiene which can be used in case of emergency. The topics discussed the principle and techniques of basic safety to ensure the continuity of the learning process. Certificates of participation were given to the participants, certificate of appreciation were also given to the resource speakers, facilitators and students.

JAIME G. JALON, Ph. D.
 President
 This College

Dear Sir,

The Research and Extension Office with the College of Maritime Education will be conducting an extension Program at barangay Mampang on October 1 and October 8, 2022. Extension Activities will include Shielded Metal Arc Welding (SMAW), and Basic Life Support Training and Hygiene.

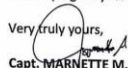

We would like then to ask your permission for the faculty from the CME to participate in the activity.

The following CME faculty are to attend the said activity:

Shielded Metal Arc Welding (SMAW)		Basic Life Support Training	
1. AGANG, QUIRINO JR. T.	1. APIT, MARNETTE M.	1. APIT, MARNETTE M.	
2. BENDEL, PORFERIO JR. DR.	2. ARANAN, ELCID A.	2. ARANAN, ELCID A.	
3. CHIONG, CHRISTALYN DR.	3. CALOYLOY, ROMEO B.	3. CALOYLOY, ROMEO B.	
4. ESPINA, JESUS CRISTOBAL M.	4. GONZALES, NONITO J.	4. GONZALES, NONITO J.	
5. JAYSON, RONILLO Y.	5. LAURENTE, EDMUNDO	5. LAURENTE, EDMUNDO	
6. MENDOZA, JUANITO C.	6. OMATANG, MARLON R.	6. OMATANG, MARLON R.	
7. PEÑAFLORES, EUSTACE A.	7. QUIAOIT, RICARDO A.	7. QUIAOIT, RICARDO A.	
8. SANTOS, ROEL	8. NARCA, EDWIN	8. NARCA, EDWIN	
9. HALILI, SERVANDO	9. SELISANA, ALVIN	9. SELISANA, ALVIN	

I am hoping for your approval of this request.

Very truly yours,

Capt. MARNETTE M. APIT
 CME-Assistant Extension Coordinator

Mangrove Planting on the 23rd of September 2022

In commemoration of the 23rd Maritime Week Celebration, a meaningful event took place on September 23, 2022, in Talon-Talon, Zamboanga City. As part of the celebration, a mangrove planting activity was organized to promote environmental awareness and sustainable coastal management. Maritime students played a pivotal role in actively participating and contributing to this eco-friendly initiative.

Coastal Clean-Up Along the College Shoreline on 25th day of June 2022

On June 25, 2022, in honor of the Day of the Seafarers, the College of Maritime organized a Coastal Clean-Up along the college shoreline. This event served as a tribute to seafarers worldwide, highlighting their invaluable contributions to global trade and maritime safety. Maritime students and faculty members joined forces to clean and preserve the college's shoreline, embodying the spirit of environmental stewardship and solidarity with seafaring communities.

Dear Sir/Madam:

Greetings!

Day of the seafarer is an official United Nations International observance day which takes place every year on June 25.

In this connection, the College of Maritime Education faculty and staff ^{have} come up an activity a coastal clean-up along the College shoreline at 7:00 in the morning on this day. Rest assured that everyone will maintain the proper safety protocol.

Hoping for your consideration and approval on this request.

Thank you and God bless and stay safe.

Very truly yours,

AWARDS OF DISTINCTION AND ACHIEVEMENT AND GRANTS OF THE PROGRAM, “BEST PRACTICES” ADOPTED

The College of Maritime Education received a certificate of appreciation from Hon. Leonard P. Aliangan, Chairman of Barangay Mampang, because of their outstanding contribution to the community through the successful conduct of the Two-day Basic Navigation and Seamanship Course with Modified Basic Safety Training under the MARINO TECHs Extension Program.

Barangay Mampang awarded the College of Maritime Education a Certificate of Appreciation for its efforts in helping the local fisherfolk community. The college conducted Phase 2 of the Seafarers Identification Book (SIB) release and provided training through the Basic Navigation and Seamanship Course with Modified Basic Safety Training under the MARINO TECHs Extension Program.

Zamboanga City

Dear Captain Apit,
Greetings!

We are pleased to inform you that the celebration of the Day of the Filipino Seafarer will be on Tuesday, 25 June 2024 with the theme "Navigating the Future: Safety First!" #SafetyTIPSASea. This is in recognition of the crucial role that safety plays in shaping the future of maritime operations.

In line with the celebration, we are honored to invite you to be our Guest Speaker for this event. Your extensive experience and dedication to the maritime industry make you an ideal person to inspire and educate our attendees on the importance of safety in navigating the future.

The event will be held at Executive Lounge, 7th floor, Tower 2, Grand Astoria Hotel located at 466 Mayor Jaldon Street, Zamboanga City and will commence at 1:00 PM. Attached herewith is the program of activities for your reference.

Please let us know your availability at the earliest time. Should you have any questions or require further details, kindly contact Ms. Eileen Reba Berlin at 955-2534.

We look forward to your favorable consideration to be part of this important undertaking.
Thank you very much.

Very truly yours,

FARIDA T. CUNANAN, Ph.D.

Electrical Power Quality Improvement through Modeling and Optimization of Passive Harmonic Filter

Sina A. Sahidaini
Department of Electrical Engineering, College of Engineering
Mindanao State University-IIT
Iligan City, Philippines
College of Maritime Education
Zamboanga State College of Marine Sciences and Technology
Zamboanga City, Philippines

Abstract—This paper studies on the harmonic distortion and the methods to mitigate the harmonics for a system with Load variation and different harmonic distortion level. A group of passive shunt filter are designed to reduce harmonic distortion and correct power factor. The proposed method optimize the group filter configuration which is suitable for load and distortion level variation to get best scenario out of passive harmonic filters. Maximum level for power factor as long as it is positive, consider as constraint and minimizing harmonics distortion index such as Total Harmonic Distortion (THD) and its Individual Harmonic Distortion (IHD) content are factors for objective function. Genetic Algorithm has been used as Optimization technique and software to simulate are MATLAB for genetic algorithm and ETAP for filter simulation in power system.

Keywords—Load Variation, Harmonic Distortion, Power Quality.

I. INTRODUCTION

Recently, there is an increasing concern about the environment. The need to generate pollution-free energy has triggered considerable effort toward renewable energy (RE). RE sources such as solar, wind, flowing water and biomass offer the promise of clean and abundant energy. They do not generate any greenhouse gases and are inexhaustible. Solar Power, in particular, is especially attractive for Philippines. In the era of renewable energy, wind power and solar Energy are mostly developed and matured technology around the globe. It is converted into a more convenient alternating current (AC) power through an inverter system. [1]

Advance in technology of semiconductor devices has led to a revolution in electronic technology over the past decade and have more tendency in future.

However rise in the Power Quality problem is due to power equipment which include adjustable-speed motor drives (ASDs), electronic power supplies, direct current (DC) motor drives, battery chargers, electronic ballasts. Power sources act as non-linear loads, drawing a distorted waveform that contains harmonics. These harmonics can cause problems ranging from telephone transmission interference to degradation of conductors and insulating material in motors and transformers. Therefore it is important to gauge the total effect of these harmonics [2]. Schwanz and Bollen have conducted a comprehensive review on solutions of harmonic

mitigation techniques using active and passive filters [3]. Jain and Sing estimated harmonics in modern power systems narrowing down key issues and challenges [4].

A paper presented by Adel M. Sharaif, Michael E. Fisher a novel optimization design technique for power system shunt filters to ensure harmonic reduction and noise mitigation on the electrical utility grid. The proposed filter design is based on the minimization of a composite objective function depicting the three main filter objectives of minimum harmonic current penetration into the electric grid system, maximum current absorption by the harmonic filter and minimum harmonic voltage distortion at points of common coupling.

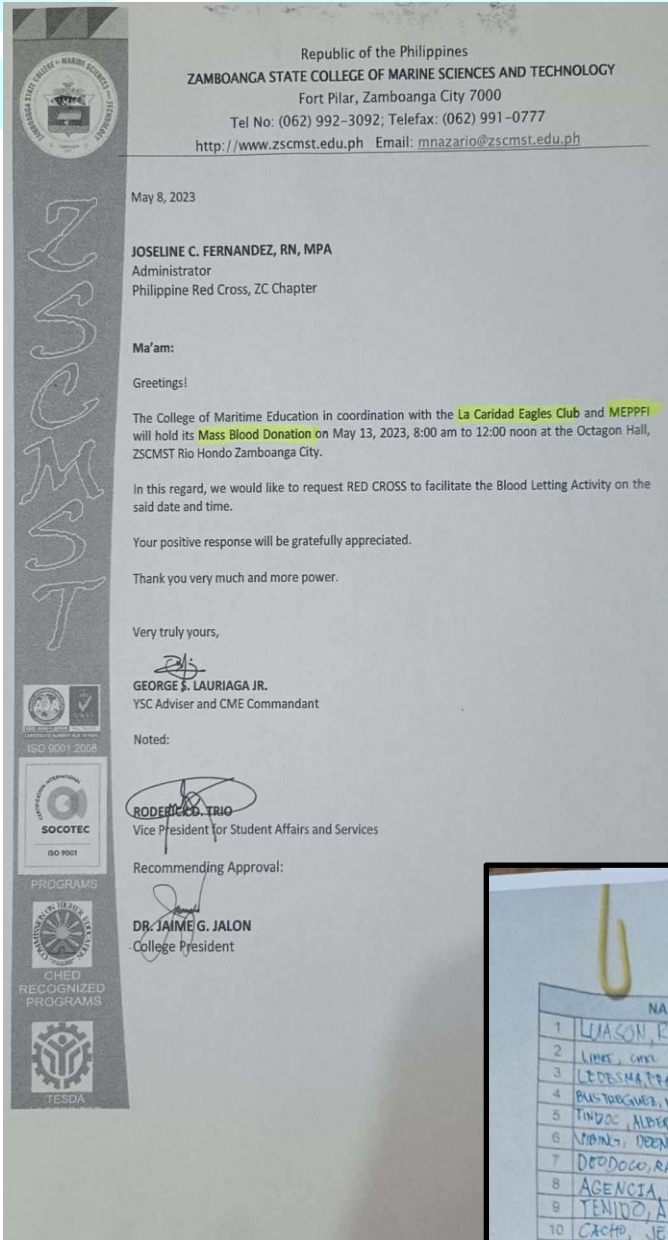

Theory for the Design of C-type Filter by Yao XIAO, Jie ZHAO, Shijie MAO Based on the theoretical analysis, the paper introduces an algorithm for calculating the parameters of C-type filter that has not been published before. Firstly, the relationships of all parameters are established and discussed. Then, Parameters with least cost of the filter are also derived. Finally, the method is testified by the parameters of C-type filters having been used in some HVDC projects. Young-Sik Cho and Hanju Cha present how to select tuning factor and quality factor in designing of a single-tuned passive harmonic filter. Tuning factor and quality factor must be considered before a decision of filter parameters(R, L and C). Rampant rise in population, energy demand, economic growth and emissions have popularized renewable energy sources [6-7]. Flow of currents in longer HVDC and HVAC lines and overloaded distribution transformers cause line losses [8].

II. FILTER DESIGN

The most common type of passive filter is the single-tuned "notch" filter. This is the most economical type and is frequently sufficient for the application. The notch filter is series-tuned to present a low impedance to a particular harmonic current and is connected in shunt with the power system. Notch filters can provide power factor correction in addition to harmonic suppression. In fact, power factor correction capacitors may be used to make notch filters. The notch harmonic h notch is related to the fundamental frequency reactance by:

$$h_{\text{notch}} = \frac{X_c}{\sqrt{3X_f}} \quad (1)$$

Using of Motor Control Training Module as part of the Wiring Training Objectives which is a Research Base Invention by Engr. Sina Sahidaini. The invention is now on its process for patent.

The Mass Blood Donation event was jointly organized by the College of Maritime Education, La Caridad Eagles Club, and MEPPFI at the Octagon Hall, ZSCMST Rio Hondo, Zamboanga City. The Bloodletting activity was facilitated by the Red Cross.
